OHIO WOMAN'S STORY HITS AT DAUGHERTY

21 HELD BY GRAND JURY INDICTMENTS

Action Expected Against Rum Sale Places Not Taken

23 TRUE BILLS RETURNED

Probers Ignore 15 Cases and Continue 9 Others

After voting indictments against 21 persons under arrest for law violations, the Allen-co grand jury teminated a three days session Wednesday night without taking drastic action expected against owners of property where liquor is known to have been sold or kept.

Eighty-eight witnesses passed into the jury room during the session and told their stories. The jury considered 47 violations, returned 23 true bills, and ignored 15 cases and continued nine cases. W. J. Bowers was foreman. The jury was dismissed subject to call.

MANY NAMED

Indictments were returned against Josa Nuza, for grand larceny; and Joe Picha, alias Joe Fisher, larceny.

John Walker, colored was indicted on three charges of shooting to kill, and for carrying concealed weapons.

Roy Hastings, salesman, is facing a charge of selling mortgaged property. The jury found sufficient evidence to hold him for trial.

Other indictments are: Art Opperman, for forgery; Harry Bradford, alias Harry Owens, forgery; John and Pat Dahill, non-support; John May, grand larceny; John Lewis, larceny; Pete Oper, Louis Vallis, receiving and concealing stolen goods, and Judson Simmons, Russell Ford and Ed McGinnis, burglary and larceny; DeWitt McGee, auto theft; Frank Sinks burglary, George Phillips, check charge and burglary. Arthur Rickets, forgery. Fred Carey and Robert Horn, receiving and concealing stolen property.

WATER PROGRAM BEGINS MONDAY

City to Start $75,000 Project With Six-inch Pipe

Laying of water mains in the $75,000 improvement program outlined by the waterworks department and City Manager C. A. Bingham will start Monday on E. Elm-st, according to Charles E. Evans, superintendent of the waterworks.

Initial program is to lay all six-inch pipe in the north end and clean up that district before ten inch extensions are made on other streets.

After completion of the E. Elm-st extension, work will start on Hamilton-av and then to Courtland-av, with the program calling for extensions of Harlan-av.

Completion of extensions on Central-av and N. Union-st will clean up the six inch extensions. Pipe for the work has been received here and is being hauled to the jobs.

Other material for extensions has been received, according to Purchasing Agent Frank Hume, and when workmen are ready to install pipes the work will not be held up by lack of material.

PORCUPINE AS FOOD SAVES LIVES OF MAROONED MEN

SEWARD, Alaska—An unwritten law of the north, never to kill a porcupine except for food, was recalled to old-timers here when four men with two gasoline boats were cast up on a rocky and inhospitable shore of Cook Inlet, on the other side of Kenai peninsula from here, and remained a month before they were rescued. They lived on porcupines and clams. When they were brought off the halibut boat Dugelay, they were in tip-top condition.

To slay a porcupine wantonly is, to the code of the prospector and trasher, as wicked as to depart from a shelter without replenishing the supply of dry kindling. Porcupine immunity was founded on the frequency with which men whose provisions became exhausted in the wilds were succored by the flesh of these animals. The Alaska porcupine, a sluggish being, is easily overtaken by man and succumbs quickly to a clout with a stick.

TWO FIGURES IN MYSTERY DEATH

William C. Gates, (above) killer in the Louisville torture house, and Mrs. Mary Lealey Wiesen Heaton, (below) widow of the victim.

"TORTURE HOUSE" MYSTERY GROWS

Stories Conflict As to Killing at Louisville

LOUISVILLE, Ky.—(Associated Press)—Another version of events that transpired in the "torture house" here immediately following the fatal shooting of Richard Heaton has been placed in the growing record of the mystery. Added interest was attached to this account because it came from a person hitherto unidentified with the case.

Dr. E. R. Clark was quoted today as having said he was called to the scene from his home a few blocks away and that he was present when Heaton died.

Neither William Gates, who claimed he shot Heaton after the latter had held him prisoner while he prepared to mutilate the captive for jealous revenge, Mrs. Heaton, quoted in a statement to officials to the effect that she reached the house just before the slaying and was present when her husband died, nor Dr. H. E. Schoonover, the first person, so far as has been disclosed, to reach the scene after Heaton was shot, had mentioned the fact that Dr. Clark was in the house.

"As I went in," Dr. Clark's account of his part in the case said, "I saw Dr. Schoonover talking to a very large man who was struggling into an overcoat and a smaller man.

"I don't know who Dr. Schoonover was talking to. I've been wondering ever since."

Dr. Clark then related how he went upstairs, found Heaton dying, with a woman he now believes was Mrs. Heaton, kneeling beside him. Heaton died and Dr. Clark went downstairs and outside the house to inform Dr. Schoonover. Re-entering the house, his statement concluded, he found the woman had come down stairs. She was talking to men who were taking notes and it was only then he learned the man upstairs had been slain and was not a victim of an accident. He then went back to his home.

Dr. Schoonover, however, was quoted as having said that except for the dying man, Mrs. Heaton and himself, there was no one in the house when Dr. Clark arrived. He added that he was not engaged in conversation with any one when Dr. Clark entered the house.

TWO FINED

Fines of $15 and $25 respectively were imposed by Judge Neil R. Poling in Criminal court Thursday morning on Harry McCauley, N. Main-st, and Mike O'Conner, 690 N. Jackson-st, when they were both arraigned charged with drunkenness.

EX-WIFE OF SUICIDE IS QUESTIONED

Tells of Deals by Attorney General and Jesse Smith

JUSTICE HEADS PROTESTS

Objects to Part of Investigating Committee's Procedure

WASHINGTON — (Associated Press) — Miss Roxie Stinson, divorced wife of Harry M. Daugherty's confidant, Jesse Smith, who committed suicide a year ago, again was the star witness today before the Daugherty investigating committee.

Senators not only sought to draw out details of her story yesterday in which she included some astonishing insinuations about Smith and Daugherty, but made an effort also to establish new lines of inquiry involving liquor cases and other matters that were pending in the justice department. As a result of her testimony Senator Wheeler of Montana, the committee prosecutor, announced he would call Edward B. McLean, publisher of the Washington Post, and Mel Daugherty of Ohio, the attorney general's brother.

Among other things, committeemen want to know whether there was any attempt on the part of friends of the attorney general as has been suggested in information reaching the committee, to avert Miss Stinson's appearance on the witness stand.

DAUGHERTY PROTESTS

Before the committee met today Attorney General Daugherty issued another statement declaring the investigation "could be fully and finally disposed of in a week or ten days if only pertinent inquiries were made."

The attorney general also wrote Chairman Brookhart protesting against issuance of committee subpoenas for Gaston B. Means and Thomas B. Felder on the ground that they would receive immunity under indictments pending against the attorney general.

The letter was laid before the committee but some members were disposed to insist upon hearing Means and Felder.

They are under indictment in connection with the Glass casket stock marketing case and their testimony is desired in connection with transactions of Jess Smith.

The attorney general's statement follows:

"I am adhering to my policy of saying nothing for publication for the present regarding the alleged investigation of the official action of the attorney general and the department of justice.

"I have said nothing for publication on that subject since leaving for Chicago on February 27.

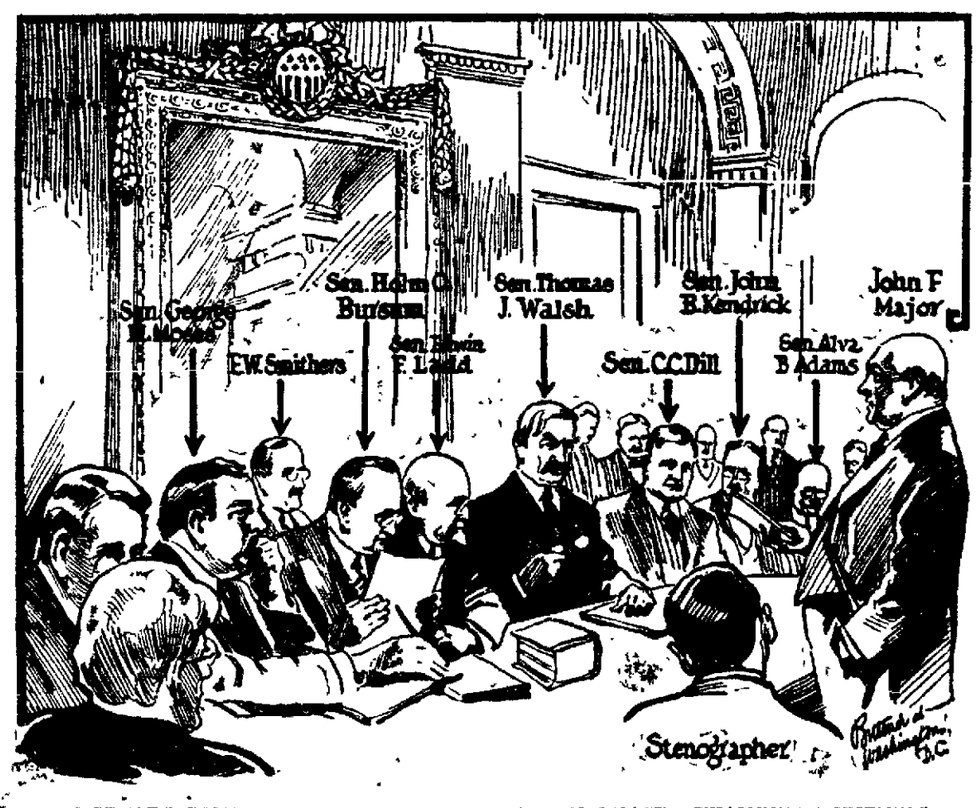

"My attorneys are giving their attention to the matter to the extent that they are permitted to participate in the alleged hearing.

"If pertinent inquiries regarding the department of justice, and the official acts of the attorney general only were made and competent testimony taken, the whole matter could be fully and finally disposed of in a week or ten days at the farthest. Anything regarding the investigation must be given out by my attorneys, as I am occupied constantly with my duties here."

$1,000 LOOT IS YEGG HAUL

Automobile Robbers Clean Out Tire Store at Wapakoneta

Automobile robbers cleaned out Paragon auto service station at Wapakoneta about midnight Wednesday and escaped with tires, accessories and equipment valued at more than $1,000.

The theft was discovered Thursday morning by Charles Fostor and Fred Butt, employes. They found that practically everything of value had been taken by the yeggs.

The service station is located at the intersection of the Dixie highway and N. Wood-st, and is only a short distance from the north corporation line of the city.

Entrance to the building was obtained by knocking out a stove pipe that protruded thru a piece of tin in a rear window. The tin was then pulled out of the way and one of the thieves crawled thru and opened the front door. Attempts to jimmy the front windows proved fruitless.

Tires valued at approximately $700, a cash register said to contain a large sum of money, perhaps as much as $300, accessories, containers of oil and other garage supplies were found to be missing.

Robbery of the building occurred about midnight, Wapakoneta police believe. Earl Wingate, who was returning from Lima about 11:45 p. m. said he observed a large touring automobile in front of the place. The headlights had been turned out, he reported.

Route of escape lay thru Lima, Wapakoneta authorities believe, as the garage is on the north side of the city and the improved Dixie highway would have made flight easy. It is probable they detoured around Lima.

COSTUMES ALA KING TUT BUT MUSIC REAL JAZZ

VIENNA — If King Tut could have looked in upon the ball given by the Shubert society recently he would have felt very much at home. No costumes were allowed except those depicting the period during which the Pharaoh reigned.

The music, especially written for the occasion, was mostly jazz. It included a two-step, "In the Valley of the Kings;" a march, "The Pharaohs' Parade," and "The Hieroglyphic Glide."

FALL ORDERED MARINES TO EVICT "SQUATTERS"

Roosevelt and Lejeune Bare New Oil Quiz Secrets

HARDING AT FIRST BALKED

President Then Withheld His Objections, is Claim

WASHINGTON — (United Press) —Albert B. Fall, as secretary of the interior, issued the order on which the navy department sent marines to Teapot Dome in 1922 to eject "squatters," Theodore Roosevelt, acting secretary of the navy, and Maj. Gen. John A. Lejeune, told the senate oil committee Thursday.

They revealed how Fall overrode objecttions by President Harding and a protest of "a friend" of the president, against use of armed force.

Lejeune revealed that the governor of Wyoming had protested to the president and Senator Walsh immediately started a search for this protest, which had heretofore been suppressed.

ROOSEVLT QUIZZED

After Lejeune had briefly related how he took instructions from Fall, concerning what the marines were to do and how he sent Major George K. Shuler, with a squad of marines, Roosevelt took the stand.

"Can you add any further light to this story of sending the marines to Teapot Dome?" Walsh asked.

"On July 29, I found a message from Secretary Fall, asking me to confer with him. He told me there were squatters on Teapot Dome preparing to take out oil. He said he and the president wanted them removed. He added that he had looked up the legal phases of it and that it was all right and that Secretary Daniels had previously done something like that.

"Fall said the president first objected to sending marines, because he had a friend who didn't want it done, but later the president agreed."

Roosevelt said he had some correspondence on the matter but that it was not important.

"The marines were sent by Gen. Lejeune," Roosevelt continued, "and that is all that I know about the case."

DETROIT PLANS ROUSING WELCOME FOR DENBY

DETROIT—An escort of automobiles and airplanes, the latter from Selfridge Field, Mt. Clemens, will meet Edwin Denby and escort him to the city hall when he arrives from Washington this afternoon. A salute of bombs will greet the former secretary of the navy when he alights from the train and thousands of persons are expected to be at the railroad station to greet him.

"Welcome home, Ned," is the slogan of the reception planned for the former secretary who resigned in connection with criticism regarding the Teapot Dome oil investigation. Acting Mayor Joseph A. Martin will officially welcome Denby at the city hall and a testimonial dinner at the board of commerce is planned for the evening.

D. T. & I. TRAIN IS WRECKED

One Killed and Two Injured in Crash

SPRINGFIELD, Ohio — (United Press) — One fireman was killed and an engineer and brakeman were injured when a Detroit, Toledo and Ironton freight train went into a ditch inside the city limits here today.

An open switch caused the train to derail. The dead man is Andrew Henry of Defiance.

The injured are Miller Gorman, Napoleon, engineer of the first engine, right leg broken, and John Donnelly, Springfield, brakeman, broken left leg. Both were removed to a local hospital.

F. E. Berkes and Leo Dunbar, both of Napoleon, engineer and fireman respectfully of the second engine of the train, escaped injury by jumping.

Four cars of the train went into the ditch with the engines.

A preliminary investigation by officials of the road brought out that an inch bar dropped into the switch from a preceding train, caused it to remain open.

CONSPIRACY IS ALLEGED IN PETITION

Cancellation of Leases is Asked in Government Case

SENSATION FEATURES FILING

Fall Blamed for Action on U. S. Oil Reserves

CHEYENNE, Wyo. — (Associated Press) — Federal Judge T. Blake Kennedy today granted a temporary injunction halting further development work by the Mammoth Oil Co. on the Teapot Dome oil reserve.

Two receivers will be named to take over control of the Teapot Dome oil reserve, Judge Kennedy ruled after hearing argument of opposing counsel.

* * *

CHEYENNE, Wyo.—(United Press) — Sensational charges of illegal and fraudulent dealing in the case of Teapot Dome naval oil reserve to Harry F. Sinclair, were made in the petition asking that the contract be cancelled which was filed in United States district court here today.

Attorneys Atlee Pomerene and Owen J. Roberts appeared before Judge T. Blake Kennedy, at 10 a. m. and presented their petition, which made the following charges:

1—The order of President Harding, transferring Teapot Dome naval reserve was invalid, illegal and was known to be so by Albert B. Fall, secretary of the interior and Sinclair, at the time the lease was made.

2—The order was obtained from the president by Fall on false representations, so he could deal with lands not to public benefit.

CONSPIRACY CHARGED

3—That Fall and Sinclair conspired to defraud the United States by execution of the lease.

4—That negotiations and conclusion of the lease was a private secret.

5—That in contravention to the law, the lease of April 7, 1922, was awarded without advertisement or competitive bidding and as a result the contract was illegal.

6—That Secretary of Navy Denby took no part in the negotiations and affixed his signature merely as an attempt to evidence his compliance and exercised no discretion in its making.

7—That other persons and corporations, among which were the Texas Co., Pioneer Co., E. L. Doheny and Leo Stack, were desirous to obtain the lease and Fall denied the opportunity and discouraged bidding.

8—That Fall, altho question was raised as to legality of the lease, refused to take the opinion of the solicitor of the interior department or the attorney general.

9—That Fall secretly communicated with Sinclair to the effect he would not make the lease unless and until Sinclair produced a quit claim deed to all mining claims asserted to be oil lands. Fall knew these claims were worthless and himself expressed such belief.

By connivance Fall and Sinclair arranged for Sinclair to produce the deeds. Fall, fraudulently and with intent to stifle competition, said that Sinclair was acting under his advice when he obtained the deeds.

PROMISE ALLEGED

10—That Fall agreed with John Shaffer, publisher of the Chicago Post, Rocky Mountain News, Denver Times and other newspapers, that he would see that Sinclair should set apart certain lands for Shaffer.

11 and 12—That Fall and Sinclair conspired to defraud the United States.

The government attorneys asked the court to take the following action:

1—To issue an injunction temporarily until final hearing, restraining the Mammoth Oil Co. from further drilling or performing work under contract or order of any department

AMERICA TO HEAR CONCERT IN LONDON TONIGHT

NEW YORK — (United Press) —Senator Marconi, father of the radio, who will supervise the giant trans-Atlantic broadcast tonight from the Savoy Hotel, London, has developed a new "beam system" which may scrap the present type of wireless station, it was reported from London today.

It is possible the new method may be tried in conjunction with the international broadcast tonight when nine high-power English radio stations will radiate a concert of American popular songs to the four corners of the earth.

The principal difference between Marconi's new system and the present broadcasting procedure, is that the waves travel in a straight line from station to station along a single "beam" instead of being broadcast in all directions.

"I have succeeded in 'beaming' over a distance of 2,000 miles," Marconi said, according to London advices.

"The new method gives a rate of working far beyond anything yet achieved and a marked reduction in the cost of construction of stations with great economy in their utility."

When the "beam" system is entirely perfected, it will mean that messages may be sent to their intended destination without being tapped.

The Marconi company is making provision for its installation in their new station now being erected in South Africa.

Senator Marconi will preface the London broadcast tonight with a short address. Thousands of American radio fans will adjust their headpieces at 6 p. m. (American time) for the event, the concert by the Savoy Orpheon Band will continue until 9:30 p. m. For the first half hour of the broadcast, American radio stations will "stand silent." This will be the best time for radio set owners to listen in.

VOTE ON BONUS DUE MONDAY

House Committee Putting Finishing Touches on Measure

DETAILS AGREED UPON

Paid Up 20 Years Endowment Insurance Provided for

WASHINGTON — (Associated Press) — The soldier bonus bill providing for paid up twenty year endowment policies was given the finishing touches today by the subcommittee of the house ways and means committee which yesterday agreed on details of the insurance provisions.

Chairman Green planned to get final action by the whole committee on the measure before night fall and said he would seek to bring it before the house for a vote Monday.

The insurance policies provided for in the bill are based on $1 for each day of home service and $1.25 for overseas service, plus twenty-five per cent of this total and interest compounded at 4 per cent for twenty years. The maximum amounts of the policies, under the scheme, would total $1,400 for veterans who served full time in the United States and $1,900 for those who spent the maximum time overseas.

Cost of the bonus under the bill's plan was estimated at approximately $2,000,000,000, with $90,000,000 the maximum expenditure in any one year. Dependents of veterans who have died since the war would be ineligible to receive payments on the basis of $1 a day for home and $1.25 a day for overseas service. These payments would be made in ten annual installments. Veterans not entitled to more than $50 would be paid in cash.

NAMES CARVED BY MANY "DUNCES"

Historical Greats Once Were Dumbbells in School

HEIDELBERG — (Associated Press) —German historians delving into the distant past have compiled a list of some of the "Peck's Bad Boys" and the "Tom Sawyers" of Europe who became world figures in achievements of various kinds and specially o nthe battlefield.

Napoleon stands first, not that he was a particularly bad boy, but because of his campaigns and accomplishments which brought him everlasting fame. Napoleon, it is recorded, was always a constant source of annoyance to his teachers, and when he was a military academy student he was known as one of one of the most stupid young men in his or any of the other classes.

WELLINGTON LAZY

One of Napoleon's opponents in war in later years, the Duke of Wellington, was known as a lazy youngster, and in his school days his thoughts always appeared to be pre-occupied with matters other than books or study. General Blucher was another who, according to German custom, was known as a "last place" pupil, one of the class relegated to the rear seats in the school room because of their unwillingness to learn. Blucher hated to apply himself, in the class room, and was particularly adverse to learning his A B C's. It was years even before he was able to write his own name.

Charles Darwin never cared much for his school room tasks "but always appeared more interested in birds and animals and things in the great outdoors, and was known among the other youngsters as having a weakness for chasing every cat or dog in sight."

NEWTON ANOTHER

Isaac Newton was another "last place," pupil. Nelson, the British naval hero, while not exactly a bad boy in school, is listed as having no talents at all, and even below the average in his classes. Oliver Goldsmith did not like school at all, and Lord Robert Clive, statesman and general, as a boy, was the despair of all his teachers. After he had been expelled from four schools, his father in desperation sent him on a long cruise to the east where eventually he founded the empire of British India.

To the chemical world of Germany the name of Von Liebig ranks with that of Thomas Edison and electricity in America. Most of the school days of Von Liebig were spent in the back seats, and this has been one of the favorite stories of the German school children for several generations.

LONDON TO "OPEN UP" DURING EMPIRE EXPO

YONDON — London is a place where nearly everyone goes to bed early and gets up late, but just to please the tourist joy-seekers coming to the empire exhibition, it is going to let people have a good time up to 2 o'clock in the morning five days a week this summer.

At present cabarets, restaurants and hotel ball-rooms close a little after midnight except on extension nights when one can dance until 2 o'clock in the morning. From April 1 until the exhibition closes, every night will be extension night except Saturday and Sunday.

The London-co council, chief regulating authority on public behavior, has just yielded to widespread demand for making London a little gayer during the exhibition. But it hasn't yet yielded to the request that the late dancers be allowed to keep on buying champagne until the orchestra stops. Unless this is done the people out for a good time will have to buy enough liquor before 12:30 to keep them merry until 2.

Labor party members of the London-co council were divided in their opinions about permitting diners to enjoy themselves after mid-

AND DOWN CAME THE MOUNTAIN!

Even a mountain is not immune from destruction in the face of 20th century progress. The Southern Pacific blew one up at Lakeside, Utah, to make way for track extensions. More than 300,000 pounds of high explosive were touched off by electricity generated in a car some distance from the scene. Residents of the town watched the destruction from a point a mile away.

JAIL TERMS NOT LIKELY AS RESULT OF WASHINGTON OIL INVESTIGATION

(BY CHARLES P. STEWART)

(Charles P. Stewart, Washington writer for The Lima News, will write each week a story which summarizes and explains the Washington oil situation. This will make it easier for readers to follow the day-by-day wire stories with greater understanding. Here is his first story.)

WASHINGTON — Is anybody apt to go to prison on account of the oil scandal? Doheny, for instance? Or Sinclair? Nobody in Washington thinks so. Fall? It's just possible HE may be prosecuted. But not probable. Still less so that he'll do time.

There'll be civil suits. The government will try to get back Elk Hills, Teapot Dome and the land the Standard Oil Company of California holds. Denby has lost his job. Daugherty doubtless will lose his. Other jobs may be lost. There'll be a political effect, maybe a third party, maybe a chance for the House of Representatives to elect the next president.

But jail for anybody! Not a bit likely.

* * *

The oil investigators have taken most of a week going through the Washington telegrams sent to E. B. McLean, millionaire newspaper man, at Palm Beach last winter.

Why so much interest in McLean's telegrams?

Well, when the oil inquiry started, ex-Secretary of the Interior Fall, naturally objecting to have it known that he'd borrowed $100,000 from Doheny just before handed him Elk Hills, got McLean to pretend HED made the loan, which had to be accounted for somehow, because Fall had used the money to buy a ranch and questions were being asked.

When the deceit leaked out McLean was afraid it would be made very unpleasant for him on the witness stand before the investigators. So he did his best not to be called. Rafts of messages were sent to him, telling him what the prospects were.

The investigators reckon that a man who was willing to try to help Fall out, as McLean tried, must know a lot about the whole case. They're trying to learn from his telegrams just what he DID know. They want to know, too.

* * *

Senator Heflin got an idea that two of McLean's telegrams were from President Coolidge. Investigation proved that he was right. The president explained, however, that one of them was about the appointment of a commissioner of the District of Columbia; the other thanked McLean for complimenting a speech he had made. A big splurge has been made because they were from the PRESIDENT, but they don't appear to have much to do with oil.

* * *

Some of the oil investigators don't get along very well together.

Senators Lenroot and Smoot are accused of trying to hush the inquiry up.

Then somebody started the story that Senator Walsh had been corresponding with Doheny. Walsh promptly read the correspondence. It seems he called Doheny's attention to a letter from a man who wanted to interest some capitalist in Montana oil. Doheny said he WOULD be interested if Walsh would go in, too. Walsh said he couldn't; he was a senator and it wouldn't be right—wouldn't look very well, anyway.

It all happened before Doheny's and Fall's names were linked.

* * *

Doheny says he won't even lose Elk Hills. He declares the inquiry is "all politics." He admits it's been made to look bad for him. But when the matter gets into court, he expresses all confidence that he'll come out all right. He adds that the government did better on his lease than on a lot of others it's made.

JAP WITH FRENCH WIFE FORCED TO QUIT ARMY

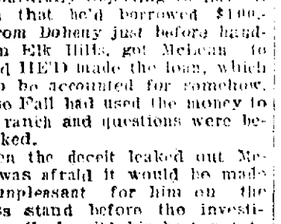

TOKIO — Marriage to a European wife is no aid to advancement in the military service of Japan, according to the experience of at least one army officer of high rank.

Col. Junichiro Kobayashi was married two years ago to the daughter of a french army officer, whom he met while detailed to Pairs for special study. As a consequence, it is asserted he fell into disfavor with his superiors; his promotion was delayed, and such pressure was brought to bear on him that he has resigned from the service. His resignation has brought out considerable publicity and comment in the Tokio press.

Army officials deny that his French marriage had anything to do with Colonel Kobayashi's resignation.

ISLANDS GET DEER STOCKS

CORDOVA, Alaska, — Islands in Prince William Sound near here are being stocked with deer by the United States government. Ten of the animals brought from Baranof island, southeastern Ala ka, recently were taken to Moutague island in the sound. This colonization work is expected to be extended to the Kenai peninsula, on the main land west of here, Alaska's zost known game district.

Mothers know a dose of DR. CALDWELL'S SYRUP PEPSIN Will keep them fit

'First Aid' For Sick Children

THE experienced mother is not alarmed when a child becomes sick. She knows that most of the ailments of childhood are trifling. If it seems serious she calls a doctor, but whether or not she calls him she gives, first of all, a good laxative medicine. The doctor would advise that anyway. It is his "first aid." Such experienced mothers as Mrs. Everett E. Hunt of Belzoni, Okla., who has three childre and never any sickness, and Mrs. F. B. Kuklenski of Prosser, Wash., always give Dr Caldwell's Syrup Pepsin at the first indication of sickness. Such timely doses have saved them much worry.

The Meaning of "Good"

All doctors agree that a thorough cleaning out of the bowels is of first importance for it removes dangerous intestinal poisons. They will also advise a "good laxative," and by "good" they mean one that is effective and yet harmless. They know that there are physics that never should be given to children - calomel, which is mercury and loosens the teeth; phenolphthalein, a coal-tar drug that causes skin trouble; salts, which concentrate the blood and dry up the saliva. They consider Dr. Caldwell's Syrup Pepsin safe for all ages as they know it is a simple vegetable compound of Egyptian senna with pepsin and agreeable aromatics. The formula is on the package.

Give Laxative for Colds

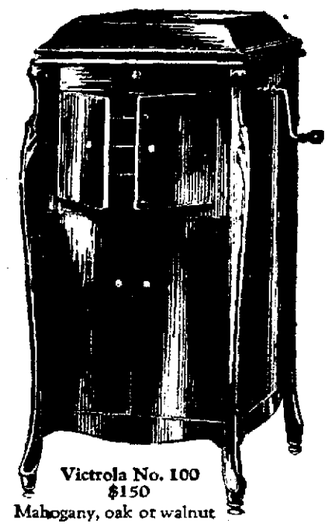

Adults should have at least one movement of the bowels every 24 hours, and children two or three. Failure to have it means constipation, then headache, biliousness, drowsiness, lack of appetite. Give a dose of Dr. Caldwell's Syrup Pepsin at bedtime, and there will be health and good feeling by morning. A dose costs less than a cent, and a bottle can be had at any drug store. Colds and constipation come together, so if you notice coughing or sneezing stop it at once with Syrup Pepsin.

STRONG | RIGID | TEETH

Are an important factor for the best mastication. It takes but little more effort to have your teeth in a sound, secure condition than to have them loose, feeble and frail.

Try 5 minutes of thoughtful, daily attention to your teeth for 30 days, and you will surprise yourself at the enjoyment that will follow it as well as better teeth.

The soundness of your teeth will be just as good as the care you give them.

One reason my operations command popularity—patients have a new experience with better teeth—comfortable teeth.

SHIP SEIZED BY U. S. AGENTS

British Steamer Tccused of Violating Dry Law

SEVEN OF CREW ARRESTED

Liquor and Drugs Are Confiscated in Raid

NEW YORK — (Associated Press) — Steamship circles have been stirred by the seizure by customs officials of the Royal Mail line's crack steamer Orduna, late yesterday, under orders of the treasury department which alleged violation of the customs law, the federal narcotic and the prohibition laws.

The seizure was the aftermath of a raid on the vessel late Tuesday night in which Federal District Attorney Hayward and other government officials participated.

Seven of the crew were arrested and liquor and narcotic drugs valued at $16,000 confiscated.

Colonel Hayward declared the government would demand a bond of not less than $3,000,000 for the release of the ship pending forfeiture proceedings.

He charged that virtually every foreign ship entering New York harbor allowed liquor and narcotic to be sold freely from the ships.

REPORT AWAITED

LONDON. — (United Press) — The British government is awaiting a complete official report regarding seizure of the Royal Mail Line steamer Orduna at New York, before considering what if any action shall be taken.

At the offices of the Royal Mail Line here today, officials stated they had not been informed that the Orduna had been "seized." On the contrary, they maintained "we merely learned that some stewards were arrested, charged with smuggling liquor. We do not believe that the ship herself has been held up."

LOSES SUIT

"No cause for action" was the verdict rendered by the jury in common please court in the case of Charles L. Yazell, against Mrs. Orris Looker. Yazell, who is a real estate man, alleged that Mrs. Looker owed him $100 in commissions as he had found a buyer for her property and she had refused to convey.

Auto Accident Last December Results in Action

Balm of $5,000 to alleviate pain of injuries alleged to have been suffered in an automobile accident in N. Main-st, Dec. 6, 1922, is demanded in a suit filed in court Thursday by Mrs. Carrie Wheeler, E. Fourth-st, against Mrs. Mary Murphy Edmonds and Joe Norton, a chauffeur.

Mrs. Edmonds is a daughter of the late Dr. J. J. Murphy, and was recently successful in a court action to set aside her father's will.

Mrs. Wheeler asserts she was riding in N. Main-st in a carriage. Mrs. Edmond's car, driven by Norton, is alleged to have backed out of an alley and collided with the horse drawn vehicle.

Propelled by the force of the car and the violent rearing and plunging of the frightened horse, Mrs. Wheeler says she was backed across the car tracks.

She declares four ribs were broken and a fifth was cracked. Her injuries and the shock suffered she asserts, is worth $5,000.

FORTUNE FOUND IN SECRET PANEL

$100,000 Hidden in Old House at Ann Arbor

ANN ARBOR, Mich. — (Associated Press) — Gold coin estimated at about $100,000 has been found here in a secret compartment of an old house which was being torn down, according to Adrian Leever, who is demolishing the building to make way for the erection of an apartment house.

The money, in an iron box, was found on the second floor in a panel in the wall, according to the statement of Leever.

The house was built in 1860 by Jackson D. Knight, who was at that time president of the First National Bank here. Knight and his wife have been dead for about 30 years.

The house then was occupied by Knight's only daughter, Clara, who died some time ago. Upon her death it was sold to William Nelson who is having it torn down.

Papers found with the gold are said to have indicated the last time the secret panel was opened was in 1878. The money is being held by Leever pending claim by heirs of Knight. As far as can be ascertained Knight has no near relatives living.

24 MEN DROWNED

Perish When Ship Sinks Off Carolina Coast

NEW YORK — (Associated Press) — Ward Line officials today awaited arrival of the Norwegian steamer Cissy at Baltimore for details of the loss of the freighter Santiago which went down sixty miles south of Cape Hatteras with 24 members of her crew.

No further word of the Santiago's fate has been received since the Cissy's captain sent a wireless message to the Ward Line saying that he had picked up a lifeboat with eleven men of the vessel's crew of 35.

The Crissy is expected to reach Baltimore today.

DAUGHERTY HIT BY WOMAN'S STORY

(Continued From Page One)

gether with other records for the senate committe investigating the administration of Attorney General Daugherty.

M. S. Daugherty, president of the bank and brother of the attorney general, left last night for Washington, D. C.

CONFERENCE PROBED

WASHINGTON.—(United Press) — A reported White House conference, attended by Attorney General Daugherty, E. L. Doheny, Harry Sinclair and late President Harding was being investigated today by senate committee investigating the department of justice.

According to the story told the committee, Daugherty, Sinclair and Doheny spent the nigh preceding Jesse Smith's death at the White House.

Daugherty, it was recalled today, was at the White House eating breakfast when the news of his friend Smith's suicide, was broken to him.

AMAZING INSINUATIONS

Miss Stinson was brought here by Senator Wheeler, Democrat, Montana, "prosecutor" of the inquiry, after a secret trip to Cleveland to question her and the opening of her story was packed with amazing insinuations, inferences and charges.

Sobbing whenever her narrative brought before her the memory of her former husband's suicide a year ago in Daugherty's apartment here, she gave the committee a breath-taking tale of relations between the two men. Smith's wealth when he came to Washington in 1921 to be with the attorney general, she said, amounted to approximately $175,000 but had increased at the time of his death to $250,000.

TOLD OF DEALS

She testified that her former husband had called on her for aid in a number of transactions and had told her of other "deals" from all of which, she insisted, he and Daugherty were to profit. The attorney general's name, she said, was not specifically mentioned, but she asserted that whenever Smith had said "we," he meant Daugherty and himself, and she frequently used "they" in referring to the same two men.

Smith at one time, she testified, told her that "we" expected about $180,000 in profits if exhibition of motion pictures of the Carpentier-Dempsey fight could be arranged, and on another occasion, she said, her former husband entrusted to her for sale, 25 shares of White Motors stock, telling her "they" had obtained it without cost. Smith, she added, also had come into possession of a number of shares of the Pure Oil Co. of Ohio.

Several clashes between Senator Wheeler and Paul Howland, chief of Daugherty's personal counsel, marked the opening session. An attempt by Howland to intervene in the examination of Miss Stinson brought Senator Wheeler to the end of the committee table with a declaration that he did not intend to be "bulldozed" and an effort to present a prepared statement on behalf of the attorney general also brought a sharp exchange.

The statement declared that Daugherty "resents and condemns the indiscriminate broadcasting of unsubstantiated rumors, whispered criticisms and false and scandalous statements for which no one is responsible" and welcomed the opportunity "to expose falsehood and scandal and to establish truth." He demanded that if any development should warrant "the formulation of an express charge" against him, it be put into "direct" terms and that he be permitted at once to answer.

ALL STATE ROADS CLOSED TO HEAVY MOTOR TRUCKS

All state roads in Allen-co, totalling 50 miles, are closed to heavy motor trucks until after the spring thaw and rain are over, in accordance with instructions received by division highway office Thursday from Highway Director L. A. Boulay.

The order was made effective on 5,500 miles of improved roads in the state. Notice was sent by Boulay to all district highway engineers to close the state roads to heavy trucks.

His order will apply to all trucks weighing more than seven and a half tons, including the load. County sheriffs are responsible for enforcement of the edict. Roads are to be posted as closed to big trucks.

The order will stay in effect until the roads are dried out.

Similar restrictions were placed on county roads by Surveyor Ed Smith, several weeks ago.

START WORK IN FOUR PLACES IS PROPOSAL IN SEWER CONSTRUCTION

The Haddad-Kairal Construction Co., Cleveland, will start work at four places on the Jones intercepting sewer job when the contract awarded by commission is approved by Solicitor Paul T. Landis and signed by City Manager C. A. Bingham.

Work will be resumed at Eureka-st, Metcalf-st, Central-av, and at some other point along the proposed route of approximately two and one-half miles of excavations.

While the contract calls for completion of the work within one year at an estimated cost of $315,000 the Haddad-Kairal Construction Co. plans to start operations as soon as the contract is signed so as to finish the project in eight or nine months.

The company has special equipment for the rock formations on the job and with sound financial backing city officials believe no delay will be experienced in completion of the unit which is one of the most important in the $3,000,000 improvement project nearly finished.

MARINES ORDERED OUT BY FALL

(Continued From Page One)

Roosevelt added in answer to a question by Kendrick.

JUST SAID "GOOD"

"I told the president about sending Shuler at the cabinet meeting following that," Roosevelt testified. "I think he just said 'Good' and didn't ask me any more about the matter."

Kendricks asked if Roosevelt knew of any protest from the governor of Wyoming.

"I don't know, but I surmise that something like that took place," Roosevelt replied.

Roosevelt said that on Aug. 10, he received a letter from President Harding asking for information about dispatch of marines in order that he might answer letters written to him. That, Roosevelt said, might have referred to the request from the governor of Wyoming.

Walsh then read a letter from George Christian, Jr., to Secretary Fall, enclosing a protest from H. H. Tammen of the Denver Post against the use of marines. Tammen described the Teapot Dome affair as a "good deal of a mess."

Tammen was associated with F. G. Bonfils of the Denver Post in a deal with Sinclair, whereby $1,000,000 was obtained from Harry Sinclair for certain claims to Teapot Dome.

OHIOANS SUMMOSED

WASHINGTON — (Associated Press)—Rudolph Hynicka, Republican national committeeman from Ohio, was subpoenaed Thursday by the oil committee.

Subpoenas also went out for Harry Mackenzie, attached to President Coolidge's Chicago campaign headquarters, and for Tiffin Gilmore, deputy secretary of state for Ohio.

Hynicka, Mackenzie and Gilmore are to be questioned in connection with the story of Leonard Wood Jr., about an attempted oil deal at the Republican national convention at Chicago in 1920.

Norman J. Gould of New York and Charles H. Gerrish of Columbus, O., also were summoned.

CROSSING DANGER TO GET K. O.

Baxter-st Embankment to be Removed by Pennsy

Danger at Baxter-st crossing of the Pennsylvania railroad will be eliminated by the company as soon as weather permits removal of the embankment at the southeast approach, City Manager C. A. Bingham was notified Thursday by James Dugan, acting secretary of the public utilities commission.

After inspection here by a representative of the public utilities commisison upon request of Manager Bingham the report of the inspector was forwarded to E. H. Pinkham, superintendent of the Ft. Wayne division, and in reply he assured the state officials that the danger would be removed.

Orders will also be enforced toward keeping box cars 100 feet away from the crossing thus allowing pedestrians and motorists to obtain an unobstructed view of the crossing approach.

New grade crossing at Jamesonay is to be established next month or in May by the B. & O. railway as a result of the city's campaign for elimination of dangerous crossings. Company officials after an inspection here sustained the citations of the city and work will start as soon as the weather permits, either the latter part of April or in May, according to B. & O. officials.

B. & O. SALARIES GET BOOST

Many Local Workmen to Share in Pay Increase

Increases in wages being paid conductors, trainmen, yardmen and switchmen have been announced by the B. & O. railroad. These increases will amount to between five and six percent of present wages.

More than 8,000 men are affected by this new order, it was stated. While the exact number to obtain the pay increase in Lima is not known, it is believed it will be considerably more than 100.

Conferences between officials of the railroad and of the railroad labor unions have been under way for some time and this action is the result of these conferences.

MAN HELD FOR CONCEALING PROPERTY GETS HEARING

Case of Oscar Maubray, released from county jail Saturday on habeas corpus action, was taken under advisement following a hearing before Probate Judge J. H. Halimton, Thursday.

Judge Hamilton issued the writ, ordering Maubray's release. He was committed to jail Friday on charge of fraudulently concealing property subject to levy. A judgment won by Clifford Rison, which Maubray did not pay was made basis for his incarceration.

INTERESTING MEETINGS AHEAD IN PUTNAM-CO

OTTAWA —Interest in meetings the remainder of the week will center in the gathering of Putnam-co Wool Growers, first of which will be held Friday at 9:30 a. m. In the town hall at Cloverdale. J. F. Walker of the Ohio Farm Bureau federation, will be the speaker.

Walker will explain the contract plan to farmers and also the method of grading wool.

Other meetings for the discussion of wool subjects have been announced, as follows:

At Continental, Friday at 1:30 p. m. in the township house; Friday at 7 p. m. in Gilboa High school building; Saturday at 9:30 a. m. in the Greensburg-tp house; Saturday at 1 p. m., in the courthouse, Ottawa.

The annual meeting of the Putnam-co federation of livestock shippers will be held next Tuesday at 1 p. m. at the courthouse. At 7 p. m. of the same night a dairy meeting will be held in the township house at Kalida.

C. J. West, crop statistician, will speak at 1 p. m. Wednesday at the courthouse in Ottawa.

The final meeting of next week will consist of a gathering of food club leaders, to be held on Saturday, March 22, at 10 a. m. at the courthouse. Miss Ingle, extension specialist, will be the speaker.

FIKE SERVICES ANNOUNCED

LEIPSIC — Funeral services for John Fike, farmer, who committed suicide at his farm home early Wednesday will be held Friday at 2 p. m. at the Lutheran church in Leipsic. Rev. Lohr McCord, pastor, will officiate. Interment will be in Sugar Ridge cemetery, near Leipsic.

PADDOCK NOT COMING

LEIPSIC — The final number of the Leipsic lecture course will be given Thursday night, when Dr. Henry Black Burns, lecturer, will appear. He will take the place of Charles Paddock, athlete and lecturer selected by the committee, who found it impossible to be present.

CAR THROWS WHEEL

VAUGHNSVILLE—Glen Woods, Russell Hunt, Chester Jenkins and Paul Ford, high school boys, narrowly escaped serious injury Tuesday when one of the wheels of the Ford sedan, in which they were riding, dropped off the axle, plunging the machine in the ditch. The accident occurred at a point a mile southwest of Rimer. The boys received serious cuts and bruises. The machine was almost a total wreck.

PROSPECTIVE FIANCES GALORE!

The way to the altar has been made easy for Helen Heckman, Muskogee (Okla.) dancer. Two years ago she carried off honors in a national beauty contest. Since then a steady stream of love epistles have been arriving at the home of the "most-proposed-to girl in Oklahoma." A young ranchman encloses an amorous poem he made up as he milked his cows. A struggling musician encloses a sheet of a song he composed in her honor. A man of 60, deaf like herself, thinks a "perfect union could be formed by two deaf people." Even clergymen seek her hand. But Miss Heckman, regarded as one of the prettiest young women in America, declares wedding bells are not going to ring for her. She's married to her career, she says.

CRAWFORD HEADS ASSOCIATION

Local Shoe Man Named President of Shoe Dealers' Group

P. W. Crawford, Lima shoe retailer, was elected president of the Ohio Valley Shoe Dealers' association at its meeting in Dayton Wednesday. His term will be for one year.

This organization is the largest association of shoe dealers in the United States and has members in Ohio, West Vriginia and Kentucky. It was organized in 1911.

Other officers named are: C. E. Petot, Cleveland, first vice president; C. Seidenfeld, Murray, second vice president; P. J. Myer, Dayton, third vice president; M. L. Wright, Springfield, treasurer, and H. F. Hageman, Columbus, secretary. Seaton Alexander, Wheeling, W. Va., is national president.

Crawford will be in general charge of all efforts among shoe dealers to raise the standard of service, he said. He has been in the retail shoe business here for the past 14 years and his business was recently incorporated for $75,000. The next convention may be held in either Cincinnati or Cleveland, he said.

REAL ESTATE TRANSFERS

OTTAWA — Real estate transfers filed in Putnam-co this week still run to the transfer of farm lands. This has been true for the past month, exchange of town properties being few.

The list of transfers is as follows:

Sheriff of Putnam-co, to Sylvester Vonder Embse, part of outlot 16, Kalida, $1,070.

Clink J. Fruchey to Herman A. Hermiller, 40 acres, Section 30, Pleasant-tp, $8,000.

John Robinson and others to Clint J. Fruchey, 55 acres of land, Section 30, $7,837.50.

GOES TO MAUMEE

VAUGHNSVILLE —Miss Mabel Williams, daughter of Mr. and Mrs. Thos. Williams, has gone to Maumee, where she will be employed as teacher in the Lucas Children's home there. More than 500 children are cared for in the home. Miss Williams has been specializing in work at the State Normal at Bowling Green.

FUNERAL ARRANGED

OTTAWA—Funeral services will be held Friday morning at Sts. Peter and Paul's Catholic church for Mrs. Albert Unterbrink, 45, who died Tuesday night at her home north of Ottawa. Interment will be in Sts. Peter and Paul's Catholic church cemetery. Death followed a long illness from cancer. Mrs. Unterbrink is survived by her husband four children.

No More Rupture--Sound as a Dollar!

Ohio Man Finds Remarkable Device Which Succeeds Where Many Fail; Sample SENT FREE

This is an invitation that no man or woman in Lima or vicinity who is suffering the terrible handicap of dangerous Rupture can afford to ignore. I want to send you, absolutely free, a sample of my latest Resilient Rupture Pad, that so many users say has, when fitted to their case, not only given them instant relief from all the tortures, dangers and discomforts of Rupture but has effected a complete, lasting recovery so that all evidence of Rupture is gone and they are in perfect health and as "sound as a dollar."

Don't say this is too good to be true. Try it. Send no money—just your name and address plainly written and say "I am ruptured"—and I will quickly send you a sample Resilient Rupture Pad and full particulars of my generous offer in a plain sealed envelope. Address E. H. Scott, 243-C Scott Bldg., Akron, Ohio. Do this today—Before you forget. You may not see this notice again. adv

PAVING PROPOSED IN SHAWNEE-TP

County Surveyor Requested to Give Estimate

Construction of two miles of paved highway in Shawnee-rd and Amanda-rd, is being considered by Shawnee-tp trustees.

A request for plans and surveys and an estimate of such improvement has been filed with Ed Smith, county surveyor.

Plans call for the extension of the pavement in Shawnee-rd south from the Ottawa river bridge to the intersection of Amanda-rd. The road is now paved from McBeth's park past the country club to the river.

Amanda-rd may be paved past the Children's home to intersect with Shawnee-rd, and for some distance west.

Shawnee-tp is considered one of the wealthiest townships in Ohio. Within its limits are located such industries as the Solar Refinery, Union Tank Car plant, Garford Motor Truck Co., The Ohio Steel Foundry and several large tank farms. The tax rate is very low, being about half that paid by residents of Lima.

Citizens of the township, which includes many prominent Lima business men, it is said, are anxious to build up a fine road system.

The township may seek state aid on the proposed improvements, and will also seek money from the county.

HARMAN NAMED RECEIVER OF HARDWARE STORE HERE

Bankruptcy proceedings instituted in common pleas court Thursday by the Old National Bank, against Jones-Branson Hardware Co., S. Main-st, show that the defendant is indebted to the bank in the sum of $5,086.52, and is unable to make payment.

Judgement by confession was taken in Judge F. C. Becker's court Thursday.

The court named Frank E. Harman, retired furniture dealer, receiver to take charge of the business. Bond in the sum of $45,000 was given.

ANOTHER FILLING STATION

Erection of two houses and one gas filling station was authorized in building permits issued Thursday at city hall. E. L. Kemph plans a $3,000 house on Hazel-av between McDonel and Metcalf-st; Corey-Bletcher Realtors are to construct a $3,500 house on Harrison-av near Eureka-st and C. R. Blackburn plans a $800 gas filling station on E. High-st. Permits total $7,300.

BUREAU ELECTS

OTTOVILLE — August Trenkamp, Frank Helmkamp, George Wallenhurst, Thomas Sherman and Gilbert Eicholt were elected directors of the Ottoville farm bureau and Fort Jennings Live Stock Shippers' association, at a meeting held in the parish hall in Ottoville, Wednesday night. Gilbert Eicholt gave a report of the good things obtained from farmers' week in Columbus and J. W. Henceroth, county farm agent, spoke on "Fertilizers."

DELPHOS BRIEFS

Mrs. Fred Pape, Delphos, is spending a week in Lima with Mr. and Mrs. Herman Pape.

Clint Poling, S. Breidick-st, returned to his home for a short time Thursday morning from Detroit where he is employed.

W. H. Dillon is spending a few days in Van Wert and Middlepoint on a business trip.

W. S. Kimball, city solicitor, is vititing with friends in Van Wert.

Ira Huber went to Oakwood, Thursday to visit relatives there.

JACOB BRENNEMAN, 73, DELPHOS FARMER, DIES

DELPHOS — Jacob Brenneman, 73, retired farmer of the vicinity of Delphos, died Wednesday night at his home after an illness for almost a year.

Surviving him are the widow, Mrs. Sarah Brenneman; three sister, Mrs Andy Cotner of Colorado; Mrs. Ada Miller of Iowa, and Mrs. Effie Heatwole, of Elida; two brothers, H. Brenneman and Samuel A. Brenneman of Elida.

Funeral services will be held at the Salem church Friday at 10 a. m. Interment will be in Salem cemetery.

PARKING SPACE RESERVED FOR POSTAL CARRIERS

DELPHOS — As a result of protests received by Chief of Police Clark Thompson, the space directly in front of the local post office shall be used for parking only by the mail carriers.

Thursday morning the chief was called to the post office where he was told citizens took up all the parking space and consequently hurt the service of carriers who deliver mail in automobiles.

Service Director Cecil Laing announced that a "no parking" sign would be placed in the area reserved for the carriers.

SUGAR PROSPECTS BRIGHT

SALT LAKE CITY, — Prospects for the beet sugar industry in 1924 are exceedingly bright as good prices are being received and manufacturers are optimistic, according to Stephen H. Love, of this city, president of the United States Sugar Manufacturers' association. "Production in 1923 was about 775,000 tons," he said, "and the 1924 tonnage should be around 850,000 tons."

Boys and Girls Capture Stock Of Bootleggers

DELPHOS — Somebody probably went to their booze cache near here Wednesday night and then went home and raved at length on the unreliability of bootleggers in general and his own in particular.

The somebody in question, if the scheduled trip was made, found the cache but no booze. Somebody can blame zealous boys at play.

The boys in question proved themselves good detectives and found the contraband liquor even the police did not get the hider nor the seeker.

Police Chief Clark Thompson got the tip last night when he answered a telephone ring.

"We have found something in a log pile near the stone quarry southwest of town that looks like booze," a boyish voice informed the chief.

Thompson went to the scene as fast as he could get there legally. The tip proved a live one. He found four pints.

The chief took the prospective supply of four customers to the police station where he pronounced it real hooch.

It developed later that four boys playing around the quarry made the discovery and proved themselves good citizens by promptly notifying the police.

No clues have been unearthed as to who put the booze in the cache or who was to get it.

VAN WERT BRIEFS

Citizens of Van Wert were urged Wednesday night by C. W. Bingham, city manager of Lima, to accept the city manager form of government. He outlined the savings of such a plan and said that it was best for small towns. He spoke before the Rotary and Young Men's Business club.

Van Wert school children are to receive the Schick test for the prevention of diseases, and it was cited as very important by the city health commissioner.

RHEUMATISM

LEAVES YOU FOREVER

Deep Seated Uric Acid Deposits Are Dissolved and the Rheumatic Poison Starts to Leave the System Within Twenty-four Hours.

Every Druggist in this county is authorized to say to every rheumatic sufferer that if a full sized bottle of Allenrhu, the sure conqueror of rheumatism, does not show the way to stop the agony, reduce swollen joints and do away with even the slightest twinge of rheumatic pain, he will gladly return your money without comment.

Allenrhu has been tried and tested for years, and really marvelous results have been accomplished in the most severe cases where the suffering and agony was intense and piteous and where the patient was helpless.

Mr. James H. Allen, the discoverer of Allenrhu, who for many years suffered the torments of acute rheumatism, desires all sufferers to know that he does not want a cent of anyone's money unless Allenrhu decisively conquers this worst of all diseases, and he has instructed druggists to guarantee it as above in every instance. Argonne Drug Store and Green's Public Drug Store can supply you. adv

MURDER CHARGED TO SINGER

Chicago Woman Held in Death of Companion

SLAIN WHILE ON AUTO TRIP

"Don't Know How It Happened." Prisoner Says

CHICAGO — (United Press) — Mrs. Belva Gaertner, dashing divorcee of 30, was locked in a cell today, charged with murder, while police and the prosecutor delved into her story of the "drunken duel" pact that led to the killing of Walter Law, 29, an automobile sales man.

A coroner's jury brought in a verdict of "death in the automobile of Mrs. Gaertner from a bullet fired by Mrs. Belva Gaertner," shortly after hearing Paul E. Goodwin, fellow salesman, relate that Law told him he was considering taking out more life insurance because Mrs Gaertner had threatened him with death

LOCKED IN FLAT

"Three weeks ago, he told me she locked him in her flat with her and threatened to stab him with a knife, unless he stayed all night," Goodwin testified.

William Gaertner, former husband of the prisoner, has come to her rescue. He has provided her with three lawyers and promised her whatever other help she needs.

Mrs Gaertner, former cabaret singer, who has been involved in two spicy divorce suits, shows little concern over her predicament. She told police she was drunk when Law toppled over the steering wheel of her sedan, with a bullet thru the head.

"I don't know how it happened," she reiterates.

GRACE CHURCH SERVICE ONE OF BEST OF SERIES

"Sin" was the subject of Evangelist Thos. E Henderson's address Wednesday night in Grace Methodist Episcopal church. Prior to the sermon the song service was held with S. C. Biddle, singing evangelist, rendering two vocal solos to organ accompaniment.

Last night's meeting was spoken of as one of the most enjoyed and most successful of the entire series with 900 persons present and a large number responding to appeals for converts

Thursday night's sermon by Dr. Henderson at 8 p. m will be preceded by song service with Mr. Biddle giving two vocal solos.

Friday night is Sunday school night with members of the various Sunday schools sitting in a body. Special music will be provided by the children's chorus and the Sunday school orchestra

ENGINE NUMBERS CHANGED IN 2,000 STOLEN AUTOS

CLEVELAND—Police today are seeking 800 holders of automobile license tags who gave fictitious names or addresses, in registering, to the Cleveland Automobile club license bureau.

This was announced after a conference between Fred H Caley, secretary of the Automobile club; J. H Laughlin, head of the license bureau, and County Prosecutor Edward C Stanton as to methods of prosecution.

The developments came on the heels of the discovery that 2,000 stolen cars with changed engine numbers are being brought into Cleveland Their numbers are duplicates of those for machines shipped by a popular manufacturer to other state or foreign countries.

Changing of engine numbers, procuring of bills of sale from the county clerk's office under false pretenses and use of fake names and addresses in getting licenses are believed to have been engineered by the same ring

HER NEIGHBORS PRAISED IT NOW SHE IS PRAISING IT SAYS ALL SHOULD PRAISE IT

"I can't say enough for this new medicine Pepgen that is being introduced at Hunter's Drug store," said Mrs. Julia Mannon, of 355 N. Park Avenue.

"For the past year I have been feeling like I didn't care whether I lived or not. I just felt tired and worn out all the time.

"Every time I ate anything the food would lay in my stomach like a lump of lead About a half an hour after my meals a gas would begin to bloat me up Some times this gas would rise up in my throat and bad tasting water would come up in my mouth.

"I was just a bunch of nerves Any sudden noise would upset me so that I would get sick all over.

"At night I could not sleep. These pains in my stomach would bother me so that I would lay awake for hours. In the morning I was completely exhausted. My head would hurt me so and I would have a sour taste in my mouth. My back would pain me so I could scarcely lean over.

"About a month ago I heard one of my neighbors praising this new medicine Pepgen. She said it was good for anyone who had any stomach or kidney trouble I have started taking it and I want to tell you it is certainly fine.

"I feel better now than I have for the past year. My nerves are in good shape. I have a splendid appetite and can eat anything I want, it does not bother me. I sleep good and when morning comes wake up feeling fine. I know everybody that gives Pepgen a trial will praise it as much as I have."

CAUTION The genuine Pepgen, which Mrs. Mannon has recommended, is packed in a white, blue and gold carton and may be obtained in Lima only at The Hunter Drug stores and The Argonne store opposite postoffice. There is a Pepgen store in every nearby town. adv.

Saves Food, Health, Ice and Money

"The Perfect Refrigerator"

How To Save On Food

The Automatic Refrigerator is as much a savings institution as any bank, for it saves you actual dollars on food and ice that you have been heretofore wasting in your old-fashioned refrigerator.
Order an Automatic today. You can pay a small deposit down and let the Automatic pay for itself with the savings it effects. Investigate this plan at least.

INSULATION AIR SYSTEM

The Automatic Refrigerator has a unique and advantageous construction. Eight complete walls of insulation are built on the Automatic, insuring positive refrigeration regardless of outside temperatures. Come in and let us show you a sample of the wall.

Within the Automatic the air is continually circulating. This is the best assurance in the world of perfect refrigeration. The air is in this way always kept dry and is continually passing over the ice and becoming cooled. We will be glad to demonstrate this point.

PRESIDENT'S TAX PLAN REJECTED

Immediate Cut in Income Levy Declared Impossible

CRITICIZED BY DEMOCRATS

"In Harmony With Past Record of Delay," Hull Says

WASHINGTON—(Associated Press)—Plans for reduction in income taxes payable this year are again centered in the revenue bill, house Republican leaders having rejected President Coolidge's proposal that the provision be taken from the measure and enacted in a separate resolution before first installments are due Saturday.

The bill, as passed by the house, now is in the senate finance committee, which continued its discussion of various provisions today with Secretary Mellon.

Compliance with the president's request was impossible, Representative Longworth, the Republican leader, told him yesterday, explaining the parliamentary situation was too involved to permit speedy consideration of such a resolution. Most of the small taxpayers already have made their first payments, he added, and, therefore, separate action now would be of little benefit.

Democrats in both the senate and house criticized the president for his request and Representative Hull, Tennessee, chairman of the Democratic national committee, in a statement declared the "utterly belated tax measure of the president is in harmony with his past record of delay when confronted either by an important problem or by an emergency situation."

JACOB BRENNEMAN DIES AT HOME IN MARION-TP

Funeral services for Jacob D. Brenneman, pioneer Allen-co farmer, who died Wednesday at his home in Marion-tp, will be held Friday at 10 a. m. at the Dutch Hollow church. Rev. J. N. Shank will officiate. Burial will be in Salem cemetery.

Brenneman is survived by his widow; three daughters, Mrs. Andy Cotner, of Colorado; Mrs. Ada Miller, of Iiwa; Mrs. Effie Heatwole, of Elida and two sons, J. H. and Samuel A. Brenneman both of Elida.

Y. W. C. A. FETES GIRLS OF CENTRAL TRIANGLE

One hundred members of the Central Blue Triangle club and the women faculty of Central High were guests of the Y. W. C. A. Wednesday afternoon at tea.

Songs, stunts by the girls, and an impromptu stunt by the teachers were on the program, which was in charge of Miss Gae Morton. Miss Evelyn Byington, one of the teachers, presided.

EDUCATORS TO SPEAK

FIRE CALLS

Firemen responded to two calls Wednesday, one at the home of George Deitler, 464 E. Pearl-st, at 5:30 p. m. when sparks from the flue caused about $2 damage to the roof. At 6:50 p. m. they were called to the rear of the Vapo Stove Co, on E. Kibby-st, where a large pile of trash was burning. No damage.

BAD BREATH

Dr. Edwards' Olive Tablets Get at the Cause and Remove It

Dr. Edwards' Olive Tablets, the substitute for calomel, act gently on the bowels and positively do the work.

People afflicted with bad breath find quick relief through Dr. Edwards' Olive Tablets. The pleasant, sugar-coated tablets are taken for bad breath by all who know them.

Dr. Edwards' Olive Tablets act gently but firmly on the bowels and liver, stimulating them to natural action, clearing the blood and gently purifying the entire system. They do that which dangerous calomel does without any of the bad after effects.

All the benefits of nasty, sickening, griping cathartics are derived from Dr. Edwards' Olive Tablets without griping, pain or any disagreeable effects.

Dr. F. M. Edwards discovered the formula after seventeen years of practice among patients afflicted with bowel and liver complaint, with the attendant bad breath.

Olive Tablets are purely a vegetable compound mixed with olive oil; you will know them by their olive color. Take one or two every night for a week and note the effect. 15c and 30c

$100,000,000 LOANED TO FRANCE BY U. S. BANKERS

NEW YORK — The group of American bankers, headed by J. P. Morgan and Co., which announced yesterday that arrangements had been made for the establishment of a banking credit of not less than $100,000,000 in favor of the Bank of France, has received assurances from the French government that it will issue no other loans without having assured the service of the loan by normal budgetary receipts.

Should the credit not be liquidated at maturity on other ways, gold equal in amount to the loan will be shipped to the Morgan firm in New York. This gold security is being held by the Bank of France. It is understood that the loan will not run for more than one year.

Stabilization of the French exchange will be one of the principal uses to which the French government will apply the loan.

LIMA HAS STATES "BEST BATTERY"

Such is Declaration as Result of Federal Inspection

The best drilled and the best kept battery in the state.

Such was the comment made following regular federal inspection Wednesday night of Battery D field artillery O. N. G. held in the battery's headquarters in E. Spring-st.

Present for inspection were 54 members of the company with three officers. Inspection was conducted by Capt. B. Lattmore, regular army inspector of the 150th field artillery and Major Milan, senior instructor of the 32nd field brigade.

Compliments for the battery included the horses and their care as well as the condition of equipment.

Following the inspection Capt. Lattmore gave a talk on "How to keep fit for Uncle Sam" and announced his intention of doing all he can to get an armory for Lima.

"With a battery like they have here in Lima, the people ought to be glad to help give the boys an armory to take care of the $250,000 worth of property under their care."

Capt. Neil R. Poling and Lieut. Geo. W. Nicholas were commended for their efforts with the battery.

POLICE HOLD MAN WANTED FOR ALLEGED AUTO THEFT

William J. Kapff, 100 E. Circular-st, was apprehended at his home Wednesday evening by local police and was lodged in jail to await the arrival of Sheriff J. L. Boyer, of Logansport, Ind., who holds a warrant charging him with the theft of an automobile.

Kapff and Robert Gattin, 183 S. Elizabeth-st, are alleged to have stolen a Dodge touring car belonging to the sheriff's brother from Logansport Monday night. Gattin could not be found by police.

KIWANIS FARMERS' NIGHT

ADA — The Ada Kiwanis club will hold its first farmers' night Thursday. Each Kiwanian is bringing a farmer as a guest. The program will consist of talks concerning farmers and far mproblems. Hon. J. B. Stambaugh, prominent onion grower, will speak on "New Legislation as it Affects the Farm," W. H. Powell, "Community Building," and Thomas Derringer "The Farm Bureau, its Relation to the Farm and Community."

Dull Spotted Teeth Bleached White Quick—Safe Way

To whiten dull, yellowish, stained teeth all you need now do is brush teeth with a few drops of a mild, harmless liquid—then use a special paste—and watch stains disappear. This new method is called Bleachodent Combination. The liquid softens the stains—the paste not only gently removes them, but prevents formation of new stains. Fine for removing green stains from children's teeth. No effect on enamel—its mild ingredients are intended to act only on surface stains. Bleachodent Combination is the formula of a group of prominent dentists who used Bleachodent on their own teeth for four years with highly beneficial results before offering it to the public. Millions of teeth have been whitened this new safe way. For the sake of your teeth, and to avoid disappointment, always insist on Bleachodent Combination, the SAFE treatment, and avoid cheap imitations which may do serious damage. 2 MORE DAYS TO PAY YOUR TAX

Income Assessments Are Due Saturday, Collectors Warn

Have you paid your income tax? Better do it or the government might inconvenience you to the amount of $1,000 in addition to the required tax.

Saturday is the last day to file your return. Income tax collectors are at the Lima postoffice and will aid in straightening out the tangles in your return.

Every single person earning $1,000 or more and every head of a family where the combined income of the whole family amounts to more than $2,000 must make out a return even tho exceptions may make it unnecessary to pay any tax.

Wilful neglect in filing returns exposes the offender to a $10,000 fine, one year imprisonment and an increase of 25 percent on the tax.

Failure to make a return, where wilful neglect does not enter, provides a $1,000 fine and a 25 percent boost on the tax.

To make out your return may not cost a cent. But to neglect it is another thing and may cost you considerable, according to J. C. Marsh, internal revenue collector at the postoffice.

DOZEN POLICE AND FIRE CIRCUITS TO BE PLACED

Installation of 12 circuits into Lima police and fire department is planned by Lima Telephone & Telegraph Co. to care for any improvements approved by the city.

Underground conduits with wires underground in the alley north of High-st will serve both the police and fire departments and may be used also for the combination police and fire boxes to be placed in Main-st.

No further permits for digging of E. High-st are considered by city officials as that street is one of the improved thorofares to be repaired by funds obtained from sale of automobile licenses.

JAPS RECOGNIZE PLIGHT OF AGRICULTURE IN EMPIRE

TOKIO—A separate department of agriculture is to be established by the Japanese government to cope with the increasingly serious problems of rural life and production. Heretofore agriculture and commerce have been grouped under one ministerial department.

Next to the reconstruction of the districts devastated by the great earthquake of last September, the most serious problem confronting the government is the farm problem. Conditions similar to those in the United States obtain here, farmers receiving comparatively low returns for their products in an era of high prices.

Hair Tonic Was Put On Hair In The Olden Days

Bobbed hair for girls isn't a bit more radical change than short hair for men.

So says Merle Vernon of the Y. M. C. A. barber shop.

Merle ought to know. He's been a barber in Lima for 25 years.

Dandies half a century ago used half a bottle of hair oil at a sitting and yelled for more, Merle says.

"We used to give every man who came in a shampoo and then put oil on it till a fly couldn't light without spraining his ankle," he continued.

"Half those dandies who are grandpaps now used to have their hair parted on both sides, and have the middle rolled into an imitation of a feather duster.

"It took three times as long to cut hair then as it does now.

"Dudes of 50 years ago invented a new style every week or so. Once the hair was all parted in the middle, clear down to the back of the neck. Then all the hair was brushed toward the front.

"This found disfavor with the boys who had beautiful cowlicks, so they brushed it forward except right at the front. There it was brushed back to show off its waves.

"Curling irons used to be kept by all up-to-date barbers so that men could have a curl put in their long hair."

LECTURER TO CONCLUDE CENTRAL LECTURE COURSE

ADA O. N. G. COMPANY GIVEN U. S. INSPECTION

ADA — Company H, 148th infantry, O. N. G., the local organization underwent a federal inspection here Wednesday. Staff officers from regimental headquarters were present. Col. Gibson D. Light, regimental commander, Maj. M. E. Higbee, and Capt. H. E. Brower, regimental adjutant, all of Toledo were present.

Capt. R. E. Estill, D. O. L. regular army instructor assisted by Capt. J. A. Black, regimental instructor, were in charge of the inspection. Major F. A. Hume, Lima, battalion commander, Major J. A. West, Ada. Capt. E. L. Williams, adjutant General's department, Major C. D. Crites, Lima, Capt. L. N. Murlin, and Lieut. W. A. Turner, Ada, were also members of the inspection staff.

The company was drilled in close order formation and machine gun tactics before the inspecting officers.

Alkali in Shampoos Bad For Washing Hair

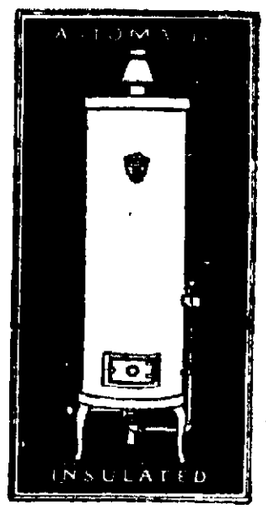

Many soaps and prepared shampoos contain too much free alkali, which is very injurious, as it dries the scalp and makes the hair brittle.

The best thing to use is Mulsified cocoanut oil shampoo, for this is pure and entirely greaseless. It is inexpensive and beats anything else all to pieces. You can get this at any drug store, and a few ounces will last the whole family for months.

Two or three teaspoonfuls is all that is required. Simply moisten your hair with water and rub it in. It makes an abundance of rich, creamy lather, which cleanses thoroughly, and rinses out easily. The hair dries quickly and evenly, and is soft, fresh looking, bright, fluffy, wavy and easy to manage. Besides, it loosens and takes out every particle of dust, dirt and dandruff. adv

OUR ONE MAN SCHOOL BOARD

DISGUSTED by the method of procedure, one of the old members of the school board objected to and voted against the new insurance allotment plan of Dr. Buchanan's school board at the meeting Tuesday night. Another old member refused to vote at all as a matter of protest.

One charged that the new insurance contracts had been handled by two members of the board and that he had not been consulted. He charged unfairness in the distribution of the new insurance business.

But these objections failed to change the program worked out by Dr. Buchanan's board.

In this connection it might be recalled that the so-called insurance investigation was made for Dr. Buchanan's board by a representative of companies to the local agency of which a large part of the new insurance was awarded by the board. And it was the local agency which was interested in nothing being said about it publicly when it became known that such a survey was being made sometime ago.

The protest of the old board member Tuesday night received about as much consideration as did the women of the City Federation of Women's Clubs when they sought to lend a helping hand to the board. It was the doctor's board, himself speaking, that snubbed the women and hurled back their offer of cooperation with a threat that nothing would be done until they withdrew their letter.

Lima has an unique board of education. The law says that there shall be five members. But the president might well refer to the board by use of the capital I.

POCKETBOOK NEWS

LIMA, primarily a manufacturing city, has reasons for rejoicing over the bright outlook for the coming months. One of the best barometers in this connection is pig iron. The production of that commodity continued to rise during the month of February. The output was nearly twice as big as in February, 1922. This means that the steel industry expects lots of customers and many orders—which, in turn, means jobs.

Railroad freight traffic continues big for this time of year.

The banking situation is strong.

Retail trade, a bit quiet in spots, is good here, and indications are for a brisk spring business. People have plenty of money and credit to keep things going in good shape. This is shown by the manufacture of 349,111 motor vehicles in February, a gain of more than a fourth over the previous February record, in 1922.

WHAT TUBERCULOSIS COSTS

TUBERCULOSIS costs the United States 500 million dollars a year, according to the Anti-Tuberculosis League. It arrives at this figure by estimating that each year of the average person's life is worth $100 in the form of national wealth. Thus a person, wro dies five years prematurely, means a loss of $500 to national wealth.

Surely we are worth more than $100 a year apiece to the nation. But even that low figure means a loss of half a billion dollars a year. If men had even mild intelligence, they would stop fighting each other and concentrate on the common enemy, disease. The money spent on the World War would, devoted to scientific research and health measures, eliminate nearly every disease now known.

SEA FOOD IS HEALTH FOOD

More than half of the high school students in some of our inland cities have been found to have simple goitre.

Not every "enlarged neck" is goitre.

A teacher or school nurse is not competent to determine whether an undue fullness or enlargement of the neck is goitre, nor is any one other than a physician competent to decide in a given case in child or adult whether a goitre is a simple goitre or a more serious condition. The iodin treatment which is so much employed at present on a mass scale for the prevention of goitre among school children in the inland cities and so commonly resorted to by way of home treatment for simple goitre which is already present, may do no harm in case the goitre happens to be of the exophthalmic or "toxic" type, though the time lost while trifling with iodin in such a case is a serious handicap which is likely to retard ultimate recovery. Further, if the goitre is of the cystic type is quite useless and nothing but surgery can be of avail, though fortunately in this third type of goitre the unsightliness of the enlarged neck is the main and often the only symptom.

We have urged the more frequent use of sea food in the dietary as a natural means of supplying iodin which the body requires for perfect health. Perhaps all iodin comes originally from the sea, and in nature nearly all of it eventually returns to the sea. Much of the iodin (old spelling was iodine) of commerce has been made from the sea weed. In the past, the analyses of various chemists have differed as to the amount of iodin present in sea fishes, mollusks and crustaceans, and hence there has been some doubt about the importance or value of sea food as a source of iodin. But these discrepancies were probably due to imperfect or inaccurate methods. More recent chemical studies have established the superiority in iodin-content of these items, in the dietary. Lobster contains 200 times as much iodin as beef or milk; shrimp 100 times as much; crabs and most sea fishes fifty times as much. These are important facts to be considered by people living in goitrous regions. They are facts established by chemists of the government.

The United States Bureau of Fisheries is, I believe, the eighty-ninth bureau or department of the government to take a whirl at public health administration—as individuals and as a nation our favorite pastime is advising one another how to keep well—we have duly designated officers and especially trained individuals to attend to our health, but we all like to opine what really is good for it or bad for it, don't we? anyhow the government's official fishermen have issued a report on this question of sea food, and in the report the fishermen go into the subject of goitre pretty thoroughly. The Treasury and Interior Depaitments will have to look to their laurels if the Bureau of Fisheries keeps on with this public health work. We have no ministry of health in our government to correspond with that of the British government, but never fear, the public health is being guarded.

By replacing meat with sea fish or shellfish in the dietary two or three times each week the amount of iodin ingested can be increased considerably.

This refers to each and every kind of edible sea food. Canned sea food has some iodin value—aside from its ordinary food value which compares favorably with meat.

Oysters, crabs, shrimps, clams, lobster, fresh salmon, fresh cod, fresh tunny, trout, whiting, eel, and numerous other varieties are obtainable in most city markets nowadays. Smoked herring contains considerable iodin and can be found in the most isolated country stores.

Aside from its value for preventing goitre, iodin may be considered far more important than iron for keeping us generally fit. Unless you're in a very poorly conducted jail or a mismanaged poorhouse you scarcely need worry about your iron ration, but if you live far from the sea you had better meet the fish market man and get your iodin.

IN A FACTORY

What do you see in factory?
Wheels that turn and fires that blaze.
Metals twisted in countless ways.
What is the coal and what is the ore
Heaped and piled at the factory door?
What is this army of men about,
Hurrying in and hurrying out?
Is it only something that's being made?
Is it only an evidence of trade?

This I saw in a factory—
A kindlier world than war can make.
A world where fewer hearts shall break,
For the coal and the ore mean a thousand things
Beyond iron wheels and gears and springs;
And I said to myself, there is bread in there,
There are clothes for the children of men to wear,
There are schools and churches and books to read
And every blessing which mortals need.

This I found in a factory—
As the army came and the army went,
A grave man over his problem bent;
"Oh, we know so little," he slowly said,
"But each day shows that we've gone ahead:
Yes, each day finds us with something done
Which makes life better for every one,
And whenever the light of knowledge breaks,
The world is freed from its old mistakes."

I thought as I stood in that factory:
'Tis here that a nation lives and dies,
From the ore and the coal must our glory rise;
Here where the metals are mixed and poured
Shines civilization's surest sword.
'Tis here that the lasting things are done
And the world made better for every one;
'Tis here, in a factory, wise men see
A glimpse of the world that shall come to be.

Lunched, alone, my wife, poor wretch, whom I have not yet seen this day, having gone into Shawnee mah jongging. Howbeit, she had all the beds made, and the eggs on to boil. Before she started the long walk. After lunch, to a cinema to collect my thots. Being unable to collect anything else. These penny-a-line guys who propose marital vacations, know very well their own wives wouldn't trust 'em out overnight.

Speaking of feathering their own nest, down in Jimtown, this state years ago in one neighborhood boasted as the first families, were the Cranes, the Crows, the Peacocks, the Quails, and the Swans. The carriage maker was named Hellrigle and the foreman of the county weekly, Wriggleman. While over in Dr. Chenoweth's section around London, there were the Pancake sisters, very chic and sweet; the Selzer sisters and the Rye brothers.

In the evening did little, putting on a brave front, as late to dinner. My wife, all out of her mah jongg togs, and into her chefess regalia. Few words were spoken, over the soft glow of the 25-candlepower. It was something ethereal, or incompatible. So, without food or music, early to bed.

Remarkable Discovery Banishes Gray Hair

A Proved Substitute for the Lost Pigmentation

Original Color Quickly Appears

Science again has scored a triumph in the discovery of a very remarkable liquid known as Kolor-Bak. If you are gray, just apply this liquid to the hair or scalp and your hair will soon take on the actual color it had in the past. Not a trace of grayness will remain.

Kolor-Bak comes in the form of a clean and coloress liquid, containing properties which quickly restore the lost color to the hair and give it renewed vigor. And note that the one preparation is for *all* colors of hair. No special solution required for each color—no samples of hair required.

You will find also that after using Kolor-Bak the hair has the same shade throughout. It does not appear streaked, faded or "dyed."

Every scientist, every physician, knows that gray hair is hair that has ceased to receive its normal supply of coloring matter or pigments from certain tiny cells (called follicles or papillae) in the scalp, because these cells have become inactive from illness, shock of some kind, scalp disease, dandruff, infection, neglect of the hair, or lack of circulation, etc. But no matter what the cause of the grayness, it is simply amazing to see how it disappears when Kolor-Bak is used. Kolor-Bak is a real substitute for the natural pigmentation.

Kolor-Bak has been proved by hundreds of thousands of people, once gray, now with hair in the original color. Get a bottle today.

For Dandruff, Itching Scalp and Falling Hair

Kolor-Bak also banishes dandruff, and prevents itching of the scalp and fallinghair. Thoroughly cleanses scalp and hair.

Found Relief in Taking Lydia E. Pinkham's Vegetable Compound. Always Recommends It

Bridgeport, Connecticut. — "I was completely run-down, had headaches, dizzy, faint feelings and other troubles women often have. As I had taken Lydia E. Pinkham's Vegetable Compound before, my husband said to take it again. I have now taken Lydia E. Pinkham's Blood Medicine, the Liver Pills, and six boxes of Lydia E. Pinkham's Vegetable Compound Tablets. I am feeling very good now and shall continue taking them for a while. I have been telling my cousin about the medicine and she wants to take it, too. I always recommend it." — Mrs. HENRY C. SMITH, R.F.D. No. 3, Box 6, Bridgeport, Conn.

Lydia E. Pinkham's Vegetable Compound is a splendid medicine for such conditions. It has in many cases relieved those symptoms by removing the cause of them. Mrs. Smith's experience is but one of many.

In a recent country-wide canvass of purchasers of Lydia E. Pinkham's Vegetable Compound, over 121,000 replies were received, and 98 per cent. reported they were benefited by its use. For sale by druggists everywhere.

Movie directors may disagree on many things, but on one point they are united: A good fight will put a picture over.

Fighting in the movies threatens to replace baseball as a national pastime A picture without a fight these days is as rare as a news photograph of a beautiful woman without her knees crossed.

It doesn't matter if the photoplay is a romance of the 15th century, whether it is a story of New York Bowery life, whether it is a society picture or an ordinary love tale. The fight between two men must be there or it lacks the punch, so the directors think.

* * *

Gloria Swanson is back in the role which made her famous. Again she is the society butterfly with full quota of smart looking clothes. She stepped from this role in her last picture. "The Humming Bird," which appeared last week at the Quilna, and her characterization of an Apache gained instant popularity

Now it's "A Society Scandal," soon to be released generally throughout the country. Supporting her in this Allan Dwan picture are Rod La Rocque, Ricardo Cortez and others of equal reputation. Mrs. Morgan Converse, member of New York's Four Hundred, has a part in it.

"Michael O'Halloran"

Gene Stratton Porter, whose novels enjoy a greater popularity perhaps than those of any other author has become a motion picture producer She has organized her own company for filming her novels her initial venture being the picturization of "Michael O'Halloran" the story of the most beloved newsboy of fiction, which opens Thursday at the Quilna theatre.

Twenty five youngsters have been used in the production which promises to bring to the screen a new note of fresh and charming realism and beauty. Introducing True Boardman in the title role, and little Ethelyn Irving in the part of 'Peaches,' the youngest leading woman on the screen, "Michael O'Halloran" bids fair to break all records for creating the youngest stars of the film world.

Irene Rich, Claire McDowell, Charles Clary and William Boyd will be seen in support of the youthful stars

A new "Leatherpusher" series will be introduced on this program. Billy Sullivan, nephew of the famous John L., is Reginal Denny's successor and his first offering is 'The Kid from Madrid, Mich." Quilna News will complete the bill.

(BY CADJE)

"The Gingham Girl," added another to the long list of most excellent attractions, which Manager Clark, of the Faurot is responsible for. Put the opus as as a delicious melange with a touch of farce, some sob moments, an old but satisfactory plot—something very unusual with the average musical entertainment—the best dancing seen here in a long time; pithy comedy, bordering on the old time kind—very welcome indeed, and you've guessed the secret of whatever success the Lawrence Schwab—Daniel Kusell offering is responsible. The most important part of this concoction of farce, drama and ballet divertisements was that it gave the highest satisfaction to a large audience.

The reason, perhaps was the snappy work of the chorus, and complete adequacy of the cast, with something better on than improbabilities. There came a young man with this cast named Bobby Jarvis—nobody ever heard of him before, it is his first responsible part, but he proved of exception cleverness and carried the burden of major success attributed to the play, with an abandon of personality which delighted everybody present. He is not of the new school comedians; rather makes us think of the stars that have gone; eccentric, perhaps, but never tiresome; always welcomed with keen delight.

"The Girgham Girl" proved a delightful offering; equal in every respect to what had been said of it in advance.

Program Changes

A complete change of program was offered at the matinee Thursday afternoon, for the last half of the week at the New Orpheum theatre. "Watch Your step" is the title of the new musical comedy which will continue thru Saturday night. The production is being given by Martin's Footlight Follies company which includes Ralph Pence, of Lima, "Saxophone Wizard." In addition to "Watch Your Step," an extra attraction at the 7:30 show Thursday evening will be "Donation Night." Another big frolic for the kiddies will be given at the matinee at 2:30 Saturday. Starting Sunday matinee, the attraction will be Harley's Big Time Revue, in the musical comedy treat, "Who's Who."

HOOTS FROM GALLERY LOWER THEATRE PRICE

LONDON — The gallery gods of London's theatres know how to get rid of what they dislike. The one they howl for, the other they "boo," and they seldom stop either until they are satisfied

The gallery audience that witnessed recently the first performance of Sir Gerald Du Maurier in "Not in Our Stars" took it into their heads that two shillings a seat was too much money to pay for the gallery. So when Sir Gerald came out to make a curtain speech they started "booing," and then a deep voice shouted, "What about a shilling gallery? It ain't worth two bob."

"If you want a shilling gallery," Sir Gerald shouted back, "you shall have one from now onward.

The next night tickets for the gallery were only a shilling.

INDIAN TRIBES BELIEVED MEN BECOME ANIMALS

SANTA BARBARA, Cal. — The Santa Barbara Channel Indians, before the influences of white civilization came among them, believed just the opposite of the modern theory of evolution, according to J. P. Harrington of the Museum of the American Indian, a recent visitor here.

These Indians, said Harrington, thought that all the animals once had been people and had attained their various form by a slow process of evolution. There had been a time, according to the lore, when people were the only form of life. Gradually the "first people" came to resemble certain animals, into which they eventually turned.

RAILS SHOW PROFITS

BERNE — The national railways of Switzerland in 1923 showed a surplus over expenditures for the first time since the war. The surplus amounted to 2,290,000 francs.

WOMAN JUMPS 17 TIMES FROM PLANE, AND LIVES

BERLIN — Fraulein Schneider has jumped from airplanes in a parachute 17 times and still lives. She is Germany's only female parachutist and works together with her fiance, Otto Heinicke, who is a builder of parachutes.

Both Heinicke and Fraulein Schneider stoutly disclaim their desire to be professional acrobates. Their jumps are made purely as sporting events for their own pleasure, and for scientific investigation of various types of parachutes.

They take the position that the parachute is really the lifeboat of the aeroplane, and that airplaining on a large scale cannot be made possible until safe means of descent, in case of accident, are provided.

FIRST AUSTRIAN PORTIA ENTERS BAR AT VIENNA

VIENNA — Fraulein Marianne Beth, an enthusiastic advocate of woman suffrage, claims the distinction of being the first woman to be admitted to practice law in Austria. Completing her university course, she studied law in her father's office and recently passed the examination admitting her to practicee.

WAS DISCOURAGED ABOUT HERSELF

Then Found Plant Juice and Got Relief From Stomach, Kidney Trouble

FEELING BETTER ALL OVER

"My advice to people who are suffering is not to wait any longer but to get Plant Juice at once because I know that it does all and even more than is claimed," said Mrs. Bessie Brannigan, who lives at 260 West Twenty-First Street New York City, while talking recently with the Plant Juice Man

MRS. BESSIE BRANNIGAN

"For years I had been a great sufferer from dyspepsia and could hardly keep the lightest food on my stomach" Mrs Brannigan continued. "I bloated with gas, had headaches and was so nervous I could not sleep and felt utterly worn out most of the time And my liver and kidneys were disordered so that I had terrible pains in my back and was badly constipated My complexion was sallow I had dark circles under my eyes. I surely was discouraged about my condition for I had tried everything and even went to California, but without result

"Then one day a friend told me about Plant Juice and recommended it to me so highly that I began to have faith in it and started taking it. I have now taken several bottles and surely am greatly improved. I have a good appetite and can eat most anything and enjoy my meals for I do not have bad after effects. And my liver and kidneys are in good condition now; pains have left my back and I have been relieved of the constipation. Besides this, my nerves have been quieted so that I sleep like a child My complexion has improved and I have gained weight and strength, and, in short, am better all over."

Plant Juice is sold in Lima at the Hunter drug stores, 49 Public Square and Main and Wayne streets; also at the Argonne drug store, opposite postoffice. adv.

The Easiest Way To End Dandruff

There is one sure way that never fails to remove dandruff completely, and that is to dissolve it. This destroys it entirely. To do this, just get about four ounces of plain, ordinary liquid arvon; apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the finger tips.

By morning, most if not all, of your dandruff will be gone, and two or three more applications will completely dissolve and entirely destroy every single sign and trace of it, no matter how much dandruff you may have.

You will find, too, that all itching and digging of the scalp will stop instantly, and your hair will be fluffy, lustrous, glossy, silky and soft, and look and feel a hundred times better.

You can get liquid arvon at any drug store and four ounces is all you will need. This simple remedy has never been known to fail. adv

SUSIE SMART'S ADVICE

Dear Miss Smart:

As I am a reader of your column and you have helped others, I wish for you to help me. As I have got so many blackheads on my face, could you give me some cure for them? Also, please tell me what is good to take moles off of your face.

How is my writing?

DIMPLES.

A good way to eradicate blackheads: Mix 1 ounce of tincture of green soap with 30 drops of peroxide. Apply to the face with absorbent cotton, rubbing it thoroly. Let the lotion remain on the face a half hour, then wash off with cold water. Apply three or four times a day. When the blackheads have been removed, use an astringent regularly after bathing and rinsing the face, so as to close the enlarged pores.

Electricity is the only means by which moles can be removed. There is no beauty shop in the city which is licensed to do this work.

Very good.

• • •

Dear Miss Smart:

I am a daily reader of your column and would like for you to help me. Do you know of any place where I can send a jointed doll and have it fixed together again? Do you know if I can buy a head for a jointed doll? I have two little girls and they both have dolls that are broken.

Also, can you tell me where to buy a leather for a davenport cover?

Please answer as soon as possible, as I will be waiting for your answer.

A HOUSEWIFE.

Didn't you know that Lima has a real Doll Hospital? If you will send me a self-addressed and stamped envelope, I will send you the name of the owner and the address of the hospital.

Leather can not be purchased here but any local upholsterer can order it for you.

Dear Miss Smart:

Will you be so kind as to answer a few questions for me?

I am a young man of 21 and have been going with a girl one year my junior. I have not been with her since the middle of last July, when we "fell out." Of course, there is always two sides to the story. Here is mine, which I tell truthfully. Early in July of last year, my sister and her husband who I had not seen for a number of years, came home on a visit quite unexpectedly. This was Sunday night and I had a date with my friend, but my sister naturally expected me to remain home with them, being too tired to go out. I called up my friend and explained the situation and she naturally being selfish, wouldn't listen to my explanation, and ended by saying, "If you can't come tonight, you needn't ever come." I simply said alright and hung up. Recently I have been out west, there were times when I had it in my mind to write but I don't believe it my place to write first. What do you think?

Since I have come back to Lima, I often see her but she looks at me for a moment and then passes on and does not speak. Do you think she can still love me now as she said she did once and yet hold spite so? It was such a trivial matter, just as I told you about. Some people say I should "make up" first, now I ask you, should I? I have too much spirit to throw myself at anyone's feet, unless I have wronged them deeply. Now, I still have a spark of love burning but she will have to "eat" her words.

How is my writing?

"ANOTHER TRUE BLUE LAD."

As you say, the matter is a very trivial one, too trivial in fact to be the cause of a quarrel between you. I do think the young lady was very inconsiderate and selfish to act as she did, when you called here. Your reason for not keeping the date was a good one and she should have accepted it gracefully.

I can't think, however, that she meant what she said about "never coming again." Perhaps she didn't think that you would take her "literally." About her refusing to speak to her on the street, she may think it might hurt her pride and perhaps, she is just a little bit hurt to think you didn't write her while you were away.

One of you must take the first step to "make up," that is evident, and personally, I think that one should be you. Call her up and ask her if you can't come out. If she'll allow you to, and I'm almost sure she will, I predict that you will part the best of friends.

Important to all Women Readers of This Paper

Thousands upon thousands of women have kidney or bladder trouble and never suspect it.

Women's complaints often prove to be nothing else but kidney trouble, or the result of kidney or bladder disease.

If the kidneys are not in a healthy condition, they may cause other organs to become diseased.

You may suffer pain in the back, headache and loss of ambition.

Poor health makes you nervous, irritable and may be despondent; it makes any one so.

But hundreds of women claim that Dr. Kilmer's Swamp-Root, by restoring health to the kidneys, proved to be just the remedy needed to overcome such conditions.

Many send for a sample bottle to see what Swamp-Root, the great kidney, liver and bladder medicine will do for them. By enclosing ten cents to Dr. Kilmer & Co., Binghamton, N. Y., you may receive sample size bottle by Parcel Post. You can purchase medium and large size bottles at all drug stores. adv

FORTUNE'S FOOL

BY RAFAEL SABATINI

ILLUSTRATED BY H.W. RAYNFIELD

COPYRIGHT, 1923, BY SMALL, MAYNARD & CO., INC. RELEASED BY NEA SERVICE, INC.

BEGIN HERE TODAY

Colonel Hollis, soldier and adventurer, returns to England, his native land, when war with Holland is declared. His Grace of Buckingham hires Hollis to abduct the actress, Sylvia Farquharson. It is dark when the Colonel carries her to the house Buckingham has rented.

Upon their arrival Hollis is horrified to see that Sylvia is an old sweetheart.

Buckingham and Hollis engage in a duel. The servants of the Duke render the colonel unconscious.

When Buckingham attempts to embrace Sylvia her dress falls from her throat, revealing a purple blotch, token of the plague so rapidly spreading in London.

The Duke and his servants flee. The colonel nurses Sylvia and saves her life. He resolves to write her a long apology and sits thru the night composing a manuscript.

NOW GO ON WITH THE STORY

He sat back then in his tall chair, and stared straight before him, a man bemused, considering. Thus awhile. Then from an inner pocket of his doublet he drew a tasseled yellow glove that was slim and long and sorely rubbed and stained with age. He sighed, and a tear, wrung by the anguish of this renunciation from this hardened, adventurer's heart, fell on his hand.

Abruptly then he sat forward, and, snatching up the quill again, he scrawled at fierce speed on the foot of the last of the written sheets:

"Here is a glove that you bestowed on me in the long ago. I wore it, as your knight wearing his lady's favor in the lists of life, proudly by the right of your gift and my unsullied honor. For years it was an amulet to maintain that honor still unsullied against all trials and temptations. Now that it has failed of this purpose through my own cowardice and unworthiness, you may not wish me to retain it longer."

That manuscript—for it is hardly to be termed a letter—still survives. Its faded characters cover some thirty pages of paper that the centuries have tinted yellow. It has been—as you will surmise—in my possession. It has supplied me with more than the mere elements of this history, which without it could never have been written.

He folded the sheets together, enclosing the glove within them, wrapped a thread of silk about the package, and on the knot of this he made a disc of wax which he sealed with his thumb. He superscribed the package, quite simply, "To Miss Nancy Sylvester," and stood it there on the table against the stem of the candle-branch within view of the first person who should enter that room.

Next he drew forth his still well-filled purse, and emptied its contents on to the table. One-half he replaced; of the other he made two packets, addressing one to Dr. Beamish and the other to Mrs. Dallows.

Softly then he pushed back his chair, and rose. He tiptoed to the window, and peered down into the shadows where the watchman kept his post, propped in a corner of the padlocked doorway. A sound of snoring came to inform Hollis that, as he had reckoned, the fellow slept.

Hollis went back. He took up his hat and cloak. Then, acting upon a sudden thought, he sought his baldric, and to the empty scabbard that was attached to it he fitted the slender dress rapier that Buckingham had left behind him.

Having passed the baldric over his head and settled it on his shoulder, he blew out the candles, and a moment later he was at the window again.

He scarcely made a sound as he straddled the window-sill; then very gently he let himself down, until he hung at full length, his toes not more than three feet above the kidney stones of the dark, empty, silent street. He dropped very lightly, and, as he was wearing no spurs, he made practically no noise at all. At once he set off in the direction of Sermon Lane.

Nevertheless, the evasion of Hollis had not gone as entirely unperceived as he imagined. Slight as had been the noise he made, yet it had reached the window of the room immediately above, and by that window — which was the window of Nancy's room—sat Nancy, driven to that vigil by thoughts that rendered sleep impossible.

Her attention aroused by those furtive sounds below, she had leaned far out from the casement and peered down into the darkness. She had heard the soft thud of feet as Hollis dropped to the street, and immediately thereafter the patter of his retreating footsteps. Very faintly she thought she made out at the same time the receding figure of a man, a deeper shadow amid shadows. But however little she may have seen with the eyes of the flesh, she saw all with the eyes of her imagination. She was on the point of crying out, but suddenly checked herself, fearful of rousing the watchman and setting afoot a pursuit which, if successful, might be attended by direct consequence for Hollis.

THE BEARERS SWUNG AWAY TOWARD PAUL'S CHAINS.

With trembling, fumbling fingers she kindled a light. Then with a rug wrapped about her over her night-rail, she made her way below. Thus she descended the stairs for the first time, and as she went she blamed herself bitterly—in her conviction that she would find things as she feared—for not having earlier taken this step and gone to seek him who remained so obdurately absent.

When on the following morning an anxious Mrs. Dallows entered the dining-room in fearful quest of her charge, she found her there, at once to her infinite relief and infinite distress. Nancy sat on th daybed under the open window. Beside her was a candlestick in which the single candle had been burnt to the socket, about her the floor was strewn with the sheets of Hollis' lettter, which had slipped from her nerveless fingers.

CHAPTER XXV

Home

Out of concern for her charge, Mrs. Dallows at once dispatched the watchman for Dr. Beamish, and, when the physician arrived some little while later, she acquainted him with the Colonel's evasion and the consequent partially stunned condition in which Miss Sylvester appeared to move.

The good doctor, who had come to conceive some measure of affection for those two, rooted, perhaps, in a certain pity which their mysterious, but obviously unhappy, relations aroused in him, went at once in deepest distress to seek Miss Sylvester.

"This is terrible, my dear," he said, as he took her hands. "What can have driven that unhappy man to so . . . so unfortunate a course?"

"He must be sought. You will order search to be made for him?" she cried.

He sighed and sorrowfully shook his head: "There is no need for me to order that. My duty compels me to make his evasion known. Search for him will follow; but should he be found, it may go very hard with him, there are rigorous penalties."

So, rejecting the chance to ease by confidence the burden that she carried, she continued to move, white-faced and listless, under the load of it during the two remaining days of her detention. Nor did the doctor come to her again until that third morning, when he was once more accompanied by the examiner, who presented her and her nurse-keeper each with a certificate of health that permitted their free departure.

Bearers were procured for her, the watchman himself volunteering to act as one of them, and the chair in which she had been carried thither, which had been bestowed in the house itself, was brought forth again at her request, to carry her away.

"But whither are you going?" the doctor questioned her in solicitude. They were standing in the doorway of the house, she with her light hooded mantle of blue taffetas drawn over her white gown, the chair standing in the sunlight, waiting to receive her.

"Why, home. Back to my own lodging," she answered simply.

"Where is your lodging?" he asked her.

She told him, adding that upon arrival there she would determine her future movements.

Considering now her case Dr. Beamish perceived that her need of him was far from being at an end.

"Come," he said abruptly, "I will go with you to your lodging, and see you safely bestowed there—that is, if you permit it."

Permit it?. Oh, my friend!" She held out her hand to him.

He smiled through his owlish spectacles, and in silence patted the little hand he held; then he made shift to lead her forward to her chair.

But a duty yet remained her. In the shadows of the hall behind lingered still the kindly Mrs. Dallows, almost tearful at this parting from the sweet charge for whom she han conceived so great a kindness. Miss Sylvester ran back to her.

"Keep this in memory of one who will never forget her debt to you and never cease to think of you fondly." Into her hand she pressed a clasp of brilliants that she had taken from her bodice—a thing of price far beyond the gold that Hollis had left behind in payment for the nurse's service. Nancy took the kindly woman in her arms and kissed her. Both were in tears when Nancy turned away and ran out to the waiting sedan.

The bearers—the watchman, and the fellow he had fetched to assist him—took up the chair and swung away toward Paul's Chains. The little black figure of the doctor strutted beside it, swinging the long red wand that did him the office of a cane, whilst Mrs. Dallows, standing at the door of the house in Knight Ryder Street, watched it out of sight through a blur of tears.

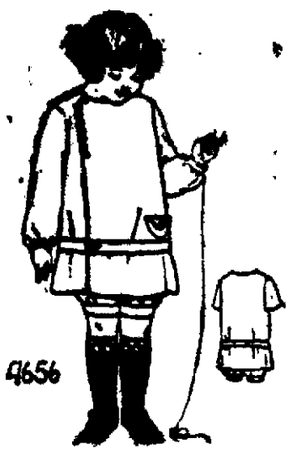

Thus at last they came to Salisbury Court and to the house that Nancy had indicated. And here at once Dr. Beamish saw his worst fears were realized.

Its door hung wide, and the dust lay thick upon the window-panes, two of which were broken. Miss Sylvester, having alighted from her chair, stood looking up, arrested by the unusual aspect of the place, and chilled by a nameless dismay.

They entered the gloomy vestibule, where dried leaves swept thither by the winds cracked under their feet, and thence they began the ascent of a narrow staircase on the baluster of which there was a mantle of dust.

Fellowship of Prayer

Daily Lenten Bible reading and meditation prepared for Commission on Evangelism for Federal Council of the Churches of Christ in America

THURSDAY

Power of Prayer

Read Mt. 7:7-14. Text: 7-7. Ask, and it shall be given you; seek, and ye shall find; knock, and it shall be opened unto you.

"All the varied years of human life are calculated to develop enlarging capacity for praying. The long history of life in the earth shows that God has been wanting men to find out the laws of the physical and psychic world and to learn how to work with him in the use of physical and psychic force for the common good."

MEDITATION: In urging his disciples to seek God, Jesus assured them that they would receive that which their souls needed most. This is not saying but what the search may be long and the seeking multiplied and the knocking continued until we are prepared to make the greatest use of that which God has in store for us.

PERSONAL QUESTION: Have I grown this year thru prayer?

PRAYER— O merciful God, help us to believe that if we lose sight of thee it is because we turn our eyes from thee. Save us from being easily discouraged in seeking thee. Let us feel about us the inspiration of thy presence. Amen.

THE TANGLE

An Intimate Story of Innermost Emotions Revealed in Private Letters

LETTER FROM JAMES CONDON TO SALLY ATHERTON

MY DEAR SALLY:

It is just as I told you it would be—the moment you got away from me you would forget all about me. Do you realize that you have been away for over two months and not a word has anyone heard from you? At least I have not heard from you, and as Sam has made no mention of your name to me, I do not feel privileged to ask him if he had heard.

Sam seems to regard me with great suspicion since you left. I sometimes look up and find him glowering at me, and I have an intuition that he is blaming me for your departure. God knows he shouldn't blame me for that, for if I could have done anything to have kept you here, you know that I would have been glad to do so.

Now please don't say "Poor boy!" in that motherly tone of yours. I know when you were here and said it, it always squelched me. Now you are away, and you cannot exercise over me the spell of your voice and the maternal look that you could call up at will into your eyes. We're just man and woman at this minute, Sally Atherton. I'm not a boy any longer, and perhaps I feel your nearness more, altho you are hundreds of miles away, than when you were with me.

You're a rather cruel woman, do you know it? You pride yourself upon never allowing your heart to rule your head, and yet you like to feel your power. You like to feel some man is interested in you. Oh, of course I wouldn't have told you this when we were together, for I should have hated to look upon the cool scorn with which you would have favored me. But you must acknowledge that what I'm saying is true.

Sally Atherton, you can no more live without the admiration and devotion of some man about you than you can live without food and drink.

This was the reason you tired of Sam when he, poor chap, allowed the sordidness and care of everyday bread and butter come between him and his love for you.

You're a queer combination, my dear woman. You were really an angel to Sam when he was blind, and yet I could see as his eyes grew stronger that you withdrew within yourself all the time.

You let me love you. Oh yes you did! Don't protest. I'll confess I didn't heed much encouragement. You are the kind of woman that always piques a man's curiosity, and of course you know, my dear, that curiosity is man's greatest tempter. He can cope with his love and with his passion, but there is something about his curiosity that must be sated.

You are probably asking yourself where I have learned all this. I've learned it from you, my dear. I did no tknow that I had learned it until you had left me.

I am very lonely, Sally. Surely you might write me just a little note to tell me how you like your new job. Sam will never mention your name, I am sure of it. Unless I hear from you directly, you will be as far away from me as tho you had winged your flight to another plane.

JIM.

Economy

Churngold has never been offered to the public as a cheap product—it has always been sold strictly on its merits as a pure, palatable staple food.

We do claim, however, that Churngold is economical. No spread approaching Churngold's quality costs so little. There is an added saving because Churngold keeps sweet and fresh for a surprisingly long time—you can use it right down to the last ounce because it doesn't spoil, even in the hottest weather.

No other spread at any price approaches Churngold in flavor and you have only to use it once to appreciate the decided economy of its keeping qualities.

YANK LEADER BELIEVES FOURTH PENNANT IS A CINC

CHAMP WILL BE FORCED TO BATTLE TOM GIBBONS

(BY HENRY L. FARRELL)

NEW YORK — (United Press) — Jack Dempsey will defend the heavyweight championship twice before the college boys start despoiling each other next fall.

The champion will fight Tommy Gibbons and Luis Firpo. All talk to the contrary is bunk for a purpose.

Dempsey's sudden backwardness about taking ona couple of jobs that would be worth more than a half million dollars is but a part of the work he has to do to get the jobs.

Dempsey would fight three times during the outdoor season if the promoters could get three opponents for him but they can't because Wills is out of it as far as a championship bout it concerned and Gibbons and Firpo are the only cards available.

Jack Kearns has been saying that Dempsey is going into pictures that will keep him busy until the first of August. Dempsey wouldn't make $200,000 out of that picture because his stuff is pretty well done. He would make $200,000 out of a Gibbons fight and he wouldn't have to put in more than five weeks' work at it.

Meanwhile, Eddie Kane, manager for Gibbons, is accusing Dempsey of running out on Gibbons and assailing him for picking foreigners for his victims. He has it figured that since Dempsey won the championship he has given $150,000 to American boxers and helped two foreigners to make $500,000.

DEMPSEY WILL BOX GIBBONS

NEW YORK— Despite increasing indications that the proposed return match in the metropolitan district early in June between Jack Dempsey and Tom Gibbons would be shelved, Tex Rickard declared he was still in the field for the match and would make a definite offer within a few days to Jack Kearns, the champion's manager.

Faced with the statements of Dempsey and Kearns that the title holder's next bout and only 1924 battle probably would be against Luis Firpo in September, Rickard reiterated that he is going ahead with Dempsey-Gibbons plans. The promoter already has obtained Gibbon's consent to terms.

Kearns, however, while admitting that an attractive enough offer would influence him to alter his plans, admitted that he does not expect Dempsey to risk his crown again until around labor day. Contracts for motion picture work by Dempsey, which Kearns expects to sign in a few days, would keep the champion busy until July 1, after which he would be ready to start training for a title contest.

HIGH RECORDS STILL STAND

CHICAGO—(By Associated Press)— The American Bowling Congress tournament enters its final fortnight of play Friday with diminishing possibilities of changes in leadership. The doubles mark of 1,031 set by Dolan-Hill of Minneapolis is expected to stand the wear and tear of many more days of competition and the world's record of 732 made by Frank Kair of Chicago in the singles bids fair to endure.

Wisconsin and Illinois bowlers are in the majority in Thursday's singles and doubles play, but bowlers from Schenectady, N. Y., Channing, Mich., Bucyrus, Ohio, and Marion, Ind., will be on the drives. In the five men event teams from Canton, Ohio and Dunkirk, N. Y., will roll.

LIVE STOCKS ROLL WELL

CHICAGO—(By United Press.)—Altho several several teams in the A. B. C. bowling classic here rolled into small money, only one, the Livestock Press five, succeeded in displacing any of the first ten.

A score of 2,805 put the Livestock team in eighth place. Only an off-night for Baumgarten, star member of the squad, prevented that five from rolling the first 3,000 of the classic.

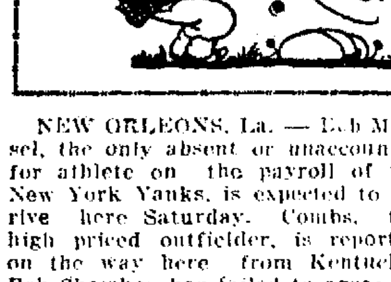

Meyer and Quinn Restaurant, Madison, Wis., were next high on last night's shifts with a total of 2,843 but this failed to land them in the big ten.

Both doubles and singles rolling was light on all shifts and few teams placed in the money. Stitz, Oshkosh, Wis., put that city in the prize running with his score of 677.

BOB MYERS BACK TO OLD JOB

CHICAGO—Paying tribute to "Uncle Charlie" Moran, formar Centre College football coach, as "the best coach I ever knew and a past master at driving men." Robert L. Myers, who introduced football at Centre, and then obtained Moran's services today announced he had taken up the job again until another is found to take Moran's place. "Thirty-three members of the football squad," Myers said, "wrote me pledging their support and begging that I come back."

Working Out The Kinks

NEW ORLEONS, La. — Bob Meusel, the only absent or unaccounted for athlete on the payroll of the New York Yanks, is expected to arrive here Saturday. Combs, the high priced outfielder, is reported on the way here from Kentucky. Bob Shawkey has failed to agree on terms.

LAKESIDE, Fla. — Uncorking a tricky Carl Mays submarine bender that had the Indians guessing, Rookie Bernard Kuhn, ex-Michigan Aggie hurler, got over big with Coach Jack McAllister.

AUGUSTA, Ga. — Ty Cobb led the yannigans against the regulars in the Tigers' first practice game of the season, but went down to defeat in six innings 3 to 2.

CATALINA ISLAND — Barney Dreyfuss, owner of the Pittsburg Pirates, was due for a visit to the island Thursday to talk with Williams Wrigley, owner of the Chicago Cubs and several trades are rumored.

WINTERHAVEN, Fla. — News that Manager Frank Chance would be unable to join the White Sox before their opening in Chicago because of illness, has cast gloom over the training camp here.

BRADENTOWN, Fla. — The Boston Braves, under Dave Bancroft, invade the Cardinals camp this afternoon for a practice game. "Spitting Bill" Doak, will hurl for Rickey's crew.

MOBILE, Ala. — George Sisler is running the Browns without much clubhouse stuff. He tells them on the field what he thinks ought to go. Hank Severeid has thought up a new set of signals during the winter.

ORLANDO, Fla. — Carl Mays, former Yank hurler, was scheduled to make his debut as a Red pitcher Thursday when the Cincinnati club play Indianapolis at Plant City, in the Red's first exhibition game of the season. A new manager for the Reds probably will be selected Friday.

NEW YORK — All of the world's champoin New York Yankee regulars were in training today at New Orleans except Bob Meusel, who is nursing injuries. The regular roster was completed yesterday with the advent of Pitcher Waite Hoyt. However, Pitcher Bob Shawkey, who is camp, had not yet signed a contract. Babe Ruth tried desperately to hit long distances but succeeded only in getting balls over the grandstand.

Disappointed by his defeat Tuesday by St. Louis, Wilbert Robinson shook up the Brooklyn infield and in today's game will shift Jimmy Johnston from third to short, displacing Moe Berg, and send Andy High to third.

PHILADELPHIA — The Phillies regular and Yannigan teams yesterday, for the second time in less than a week, battled to a ten inning tie at their training camp in Leesburg, Fla., the score being 13 to 13. Fritz Henrick, a rookie outfielder, made five hits and received a pass in six trips to the plate. Three of his hits were doubles.

The Phillies are to meet the Brooklyn Dodgers at Clearwater, Fla., today in their first exhibition game.

Reports from the Athletics' camp at Montgomery, Ala., said the players gradually were rounding into shape. Bad weather had interferred to some extent with their practice.

SARASOTA, Fla., — Pep Young, star Giant rightfielder signed a two-year contract. It is reported he has a salary of $17000. Irish Meusel is expected to sign his contract today.

NEW ORLEANS, — Bob Connory, chief scout of the New York Yanks has been sent to see Earl Coombs, young outfielder from Louisville, who has refused to report to the club. The regulars of the squad are expected here Saturday to start work.

AUGUSTA, Ga., — Ty Cobb's rookie pitchers, who will be used in the series against Toronto in a couple of weeks, are showing signs of rounding into shape and are able to try out fast balls against the Tiger sluggers.

BRADENTOWN, Fla. — Branch Rickey sent his Cardinals thru two practice games yesterday, giving them the most strenuous workout so far.

MOBILE, Ala. — Urban Shocker arrived at the Browns camp and announced his intention of winning 30 games this season.

CATALINE ISLAND — Spring training for the Cubs jumped into high speed as battling practice and a little fast fielding was ordered by Boss Killefer.

MOBILE, Ala.—Shortstop Gerber and Second Baseman McManus brought a cold wave with them and the Browns shivered thru their two hour practice. McManus' arm was injured in the last game of 1923, but has healed well, he said.

ORLANDO, Fla. — Pete Donohue, pitcher, surprised Jack Hendricks, temporary manager of the Reds Monday, in cutting loose with some real form. Hendricks had to stop him. The Reds rested today as Pat Moran, their late leader, was buried at Fitchburg, Mass.

BOWLING

Bowling is losing nothing of its popularity this season in Lima. As a matter of fact it is constantly gaining in individual efforts and leagues are thick. There will be two teams represented at the A. B. C. this year—the San Felice and El Versos. The San Felice team will be made up of E. Stepelton, E. Smith, Tom Daley, C. Probst and D. Miller. This is the same team that toppled sufficient pins to get into the prize money at the state tourney, with a score of 2845. This was the highest score ever rolled in a tournament by a Lima team. It is certain that they will do their level best to get into the pin spilling records at the Chicago meet. C. Probst and D. Miller rolled 1241 in their doubles at Cleveland. Tom Daley and Ferry rolled 1159, while Stepelton, who will replace Ferry, was the only bowler to roll his way into the distinctive class. He rolled 596 in the singles. E. Smith is also near the top with a fine score.

The El Verso team is made up E. Durbin, A. Ritzler, C. Bowdle, F. Mitchel and B. Hardesty. This also is a combination that are capable of spilling about as many pins as the other exclusive maple topplers. Heretofore they have not rolled at any tournament as a team. They are in excellent for maand should be heard from.

Delphos May Not Join League

DELPHOS — If Delphos is to have a baseball team this year, the club will emanate from a hopeless tangle of arrangements tht now exist.

It is understood that Al Huysman, well-known baseball man here, has tsated to Northern Ohio League representatives, in a meeting held at Lima Sunday, that Delphos is to join the proposed league. Huysman seems to have created quite a fuss by assuring the league that Delphos is to be a member.

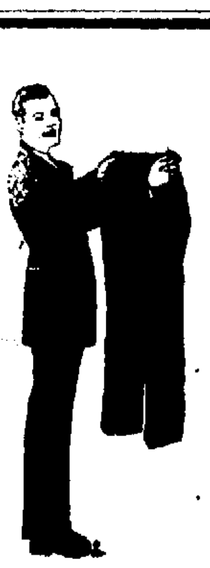

A meeting has been called by Huysman for Friday night, at which time arrangements will be made for the proposed team, providing Al gets his backing as manager.

One or two other names are being mentioned by different factions, as possible manager, and are names of those who have been intimately connected, financially and otherwise, with the team in years past.

CHICAGO—Gene Tunney, American light-heavyweight champion, who meets Cal Delaney at St. Paul on Monday, has opened training headquarters here.

AS A MATTER OF FACT

Being a Criticism of the Just and the Unjust in the World of Professional and Amateur Sports
BY HARDY BRADBURY

Sweden is in a nation-wide drive making it obligatory that every child be taught to swim. The movement has gained considerable headway in Stockholm according to official reports. They have a system of competition made jointly by state, municipal and private schools, and the result has been very satisfactory. In some schools it was shown that as high as 86 per cent of the pupils can swim more than 300 feet under test conditions. It was also brought out that in the high schools the average is 38 per cent for the 100 metre distance, and even the grade school children can swim 80 feet, or at least 32 per cent of them can.

There were over 8000 pupils in the city of Stockholm that passed rigid tests. Aside from the fact that swimming is undoubtedly the most healthful exercise of all athletics, the move is a most sensible one. There should be a state law covering this in Ohio, and for that matter in every state. It is a question of self-preservation. There are over 7000 people who meet death in the United States every year from drowning, and the number is on the increase each succeeding year. If children were taught to swim and knew how, this appaling list would be decreased several thousand.

SWIMMING AS AN EXERCISE

There is no exercise in all the category of sport so beneficial as swimming. It is the best remedy for a tired brain and nervous body. In the young person it develops and makes healthy every single muscle of the body. And it is a cleanly sport, that is a point that should not be overlooked. Strnage as it may seem there are only about 5 per cent of Americans that can swim. There is nothing of more importance in human welfare than knowing how to swim. We like to think of Annetta Kellermann, she stated once in an interview, that "The man who has not given himself completely to the sun and wind and sold sting of the waves will never know all the meanings of life."

So far as athletics are concerned swimming predates history, consequently it is woven into the fabric of man's existence with the deepest significence. Athletics were not known when expert swimmers held their endurance tests. Kellermann is perhaps partial to swimming because she has reason to be. "There was once a little girl that was afflicted with a very distressing condition of the legs. One physician diagnosed it as being caused from the child walking to early; another said there was too much lime in the bones; another and a third one prescribed that she be taught to swim, and she was afraid of the water. The parents of the child were fearful that she would be a hopeless cripple. The alternative of swimming was easy. She began her lessons; she liked them; the trouble left her entirely after she learned how to swim. That's the history of Annetta Kellermann as a child.

IT IS A SIGNIFICANT STORY

The story is significant and should bear weight in the argument of compulsory swimming. There are thousands of weaklings who could be made strong by swimming, while the healthy children could be made stronger, ore able to begin life's battles as soon as they are thrown on their own resources. With every kind of athletics being sought after, it is certain that swimming, the most healthful of all, should not be neglected.

Wooster Busy With Track Work

WOOSTER, Ohio — With the annual interclass and the Fresh-Soph indoor track meets booked for this month, Wooster College track aspirants have begun the daily grind to get in shape. The Fresh-Soph battle will be March 14 and the interclass meet will come one week later.

These will be the only indoor meets to be held at the College of Wooster this season. As soon as they are over all attention will be given to outdoor work for Coach Boles has outlined a busy spring program for his tracksters. Five intercollegiate contests in addition to the Big Six will give the men plenty of work. The schedule:

April 26, Akron at Wooster
May 3, Case at Wooster
May 10, Mount Union at Alliance
May 16—Denison at Wooster
May 23, Reserve at Cleveland
May 30-3-, Big Six.

Johnny Swigart, Wooster's speed merchant on the gridiron, is also a track star and is captain of the team. Swigart runs and dashes and does the broad jump. Just how strong the Wooster College team will be in field and track events is a question. The showing or the indoor meets is expected to give Coaches Boles and Munson a line on the men.

Wooster may send a team to the Ohio Relays at Columbus April 17. If the men show the necessary form in the indoor meets, they will be given special attention and drilled for the meets.

St. Rose Plays Last Game Friday

The St. Rose basketeers will play Toledo Central at the St. Rose gym Friday night. Coach Young has kept the squad on the jump and the locals are out to win the game. St. Rose record for the season is 7 games won and 8 lost and a victory will give them an even break for the season.

The visitors are a fightin' aggregation and won over the St. Rose crew at Toledo. This is the Rosarians last home game.

The probable lineup:

St. Rose		Toledo Central

NEW ORLEANS, La. — "The New York Yanks will wi 1924 American League pennant. Detroit will finish second Cleveland will come in third."

Miller Huggins, manager of the Yanks, who boasts of having claimed anything in baseball before, is out with thi diction.

"Cleveland looks better than Detroit for second place you come to pitching and there the Tigers have the edge."

Even if George Sisler is able to return to first base and the position as he once did, Huggins thinks little of the ch of the Browns because of the weakness at third base. H ures they might land fourth.

BIG GAINS SCORED IN STOCKS

Loan to France by American Bankers Chief Factor

MANY ISSUES AT NEW HIGHS

NEW YORK—(Associated Press)—Overnight announcement that American bankers had given a credit of not less than $100,000,000 to the French government imparted a strong tone to opening prices in today's stock market. General Electric advanced two points; Otis Elevator 1 3-4 Union Pacific 1 1-4 and Norfolk and Western 1 while most of the standard industrials improved fractionally.

The undertone continued strong thruout the early dealings altho the volume of trading was relatively light. General Electric extended its gain to 4 points and Otis Elevator to 2 3-4. Gains of a point or so were recorded by U. S. Cast Iron Pipe, Baldwin, American and Crucible Steel. New Orleans, Texas and Mexico and Brooklyn-Manhattan Transit preferred each dropped about a point. Another sharp recovery in French francs, featured the foreign exchange market.

Morning trading which had been rather lethargic in character was enlivened by the inauguration of dividends on Southern Railway common, that stock immediately jumping four points to 55, a record high, on heavy transactions. New 1924 highs were established by Woolworth at 332 3-4, up 4 1-2, Fisher Body at 215, up 3 1-2; Magma Copper at 35 3-4, up 1 1-4, and New York Dock at 25 1-4, up 1 3-4. The plethora of money available for stock market purposes as reflected in the renewal rate of four per cent for call funds also encouraged operations on the long side. Selling of Dupont, which advanced 3 3-8 points, followed the reported accumulation of General Motors by banking interests, Dupont being the largest holder of General Motors stock. Strength of Southern Railway helped other rails, St. Louis Southwestern, Missouri Pacific preferred and Wabash preferred A each advancing more than one point.

WHEAT PRICES ON DOWNGRADE

Result of Heavy Selling Thru Commission Houses

HOLDERS ARE LIQUIDATING

Corn and Oats Are Also on the Decline

CHICAGO—(Associated Press.)—Decided fresh breaks in the price of wheat took place today during the early dealings with fluctations very rapid. Heavy selling orders thru commission houses outweighed all other factors. Apparently much of the selling was of a liquidating character on the part of holders who had given up belief in prospects of an advance in prices. The opening which ranged from ⅛ to ½c lower, May $1.06¼ to 1.06⅝, and July $1.06¾ to 1.07, was followed by an irregular downward swing that in some cases went 1½c under yesterday's finish.

Corn and oats dropped with wheat but corn found vigorous support which, at around 79 cents for May, led to something of a rally. After opening at a shade ½c off, May 79⅝ to 80, corn suffered an all around setback of about one cent before the market began to recover.

Oats started unchanged to ⅛ off, May 45⅝ to 46, and later showed a moderate general loss.

Provisions were easier, owing to weakness of grain and hogs.

WOMEN OF OLD CASTLE BALK AT DRIVING AUTOS

VIENNA—The ground floor of a magnificent wing of one of the most imposing imperial palaces of Vienna soon is to be opened to the public as a fashionable restaurant, cake shop, and wine room. In the last named will be dispensed the choicest vintages of the former imperial cellars. Thus has Vienna found a partial answer to the problem of how to use advantageously the many buildings which for generations have been in the possession of the ruling family of Hapsburg.

The structure in question was built to be the residence of the ill-fated Archduke Rudolph, son of the late Emperor Francis Joseph. Its windows look out upon beautiful private gardens. The upper floors will be used as a museum, library, and public reading rooms, while on the top story it will be possible for business firms to rent offices.

GAINS ARE SCORED IN FRENCH FRANC

NEW YORK—Fortified by the $100,000,000 credit established here for the Bank of France, the French franc mounted 15 points to 4.35 cents at the opening of today's foreign exchange market and then soared another 11 points to 4.46 cents. The rise following earlier gains in London was accelerated by a rush of short covering.

FORENSIC FRATERNITY MOVEMENT STARTED TO BOOST DEBATING

IOWA CITY, Iowa — A movement for a national professional forensic fraternity, composed of representative men from literary societies and debating clubs to counteract a decline in number and strength of these activities, is being fostered throut the country, according to announcement by William O. Moore of the University of Iowa, national chairman of the committee on nationalization.

After a survey of student forensic organizations in more than 150 colleges and universities in the United States, the committee has found a definite decline in the number and strength of student literary societies and debating clubs which, with very few exceptions, is universal.

"Prominent faculty men have admitted and expressed regret at the situation," said Moore. "While many colleges and universities can boast of a rapid expansion in enrollment, their athletic prowess, and of the gigantic stadiums they have erected, very few can boast of a corresponding advancement of student forensic and literary activities."

The aim of the organization is to place the premium upon the locall literary societies and emphasis on collegiate forensics. Moore said the first national convention will be held in June at a place to be determined. At that time all petitions that have been informally accepted will be granted formal charters.

ROYAL WINES AND LIQUORS SOLD IN IMPERIAL PALACE

MADRID—In spite of the fact that motoring is popular in Spain, only 44 women in the entire country have, up to the present time, taken out licenses to drive their own cars.

The reason for this scarcity of female drivers probably is found in the restrictions which govern the issuing of licenses. A woman desiring to drive must submit a certificate of good conduct, another as to her general health, sight and hearing; and her birth certificate giving the year in which she was born. Girls under age must have the written consent of their parents, and married women that of their husbands.

Health Education committee of th teY. W. C. A. met at the home of Mrs. E. G. Weadock Thursday afternoon.

O. K. ON TAXICAB BONDS HELD UP

City Finds Documents Shy of Cancellation Clause

Liability bonds of $10,000 presented to City Manager C. A. Bingham by H. K. Heiniger of the Red Top and Yellow Cab Cos. are to be returned for compliance with city demands.

After inspection Thursday by Solicitor Paul T. Landis it was announced that no clause giving the city 10 days notice of cancellation is embodies in the bonds which were issued by the Celina Mutual Casualty Co.

Ordinance compelling taxicab operators to protect passengers and the public by carrying liability bonds ranging from $1,000 to $10,000 went into effect Thursday.

Bonds of the Checker Cab Co. had not been received Thursday morning by Manager C. A. Bingham who announced that Sunday would be the last day taxicabs could operate without liability bonds and city licenses.

NEW MAGAZINE STAND IS SOUGHT FOR MAIN STREET

Letter asking that he be given permission to erect a new magazine and news stand at E. High-st and Main-st has been received by Manager Bingham from Ralph L. Williams, owner of the stand erected here six years ago. Commission will receive the letter Monday night.

Williams states that he is a cripple and that the revenue from the news and magazine stand on Main-st is his only means of livelihood. The new stand proposed by Williams is the same size as the one now used and will be located on the same spot if commission grants the request, he states.

CITY FIREMEN PETITION FOR 14 DAYS VACATION

City firemen want a two weeks vacation with pay.

In a letter sent to City Manager C. A. Bingham they asked for an annual vacation of 14 days insted of six days as is granted.

They state they work on an average of 12 hours a day and every other Saturday work a continuous 24 hour shift. The request will be filed before commission for consideration.

Where Does the Gas Go?

Common sense and the meter can tell you

HOUSEWIVES are frequently heard to complain that their gas bill is much more this month than last, and that they are sure that they have not used nearly as much. The reason for these complaints is that very few women know how to read the gas meter and note how much they are using from day to day.

It will take only a few minutes to study and understand the gas meter illustrated and then you can soon, with a little practice, read your own meter at a glance.

To read this meter start with the 100-thousand dial, as the hand on the 1-million dial is still at naught. The arrow shows which way the dial hand travels. When the hand has gone around the circle, 100 thousand cubic feet of gas has been consumed. The hand on the dial illustrated has passed the number 4, registering 40,000 cubic feet.

On the 10-thousand foot dial the hand travels in the opposite direction as indicated by the arrow above it. In passing from one figure to the next on the dial, 1,000 cubic feet is consumed, or 10,000 cubic feet when the hand has gone clear around. The hand just past the number 7 shows that an additional 7,000 cubic feet has been used.

While the dial hand travels from one figure to the next on the 1 thousand dial, 100 cubic feet of gas is consumed, and so an additional 500 cubic feet must be added to what we already have, because the hand has passed the figure 5. By adding these readings, 40,000, 7,000, and 500, you get 47,500 cubic feet. If the reading of the previous month was 45,300 cubic feet, you will know that 2,200 cubic feet has been consumed during the last month. If the gas company charges one dollar per thousand cubic feet, the bill will be $2.20. At this rate you would get 10 cubic feet for one cent.

It sometimes happens that there is a leakage in the pipes causing the meter to register more than is actually used. This is not only costly but exceedingly dangerous. It is an easy matter to detect a leakage. The position of the hand on the 10-foot dial should be noted and then in about thirty minutes observed again. If the gas has not been turned on and the hand has moved from the previous position, there is leakage somewhere in the pipes. This condition commands immediate attention.

Gas is also wasted when the intake of air is not in the right proportion to the flow of gas. When the proportions are right, the flame will be a clear blue. If the flame is yellow, there is either too much or too little air. This trouble is easily corrected if you know how. The gas company is always glad to send a man out to put a stove in order and to instruct a housewife how to keep it so. He will also tell her many ways to keep down the monthly gas bill.

It takes only a few minutes for a housewife to read her meter daily or weekly, and to note carefully the amount of gas consumed. Once she has ascertained the average necessary consumption, she can with forethought reduce the amount of gas used whenever she sees that she is exceeding the limit. By thus applying the budget system to the gas meter, the gas bill can become as much of a known quantity as the milk bill.

Estella M. Place.

Her Gas Bills Are High Because

She uses the giant burner on her range, when a smaller one would do.
She lights two burners at a time, and then lets one of them wait while she is getting food ready.
She takes food off the fire and leaves the burner lighted unti lshe has time to put on a teakettle of dishwater.
She buys all sorts of gas-saving devices, without finding out whether they really save gas, altho the gas company would tell her.
She uses the gas oven to heat the kitchen and to dry damp clothes.
She uses her oven as a storage place for food, the moisture of which causes the oven to rust. Then she complains because the range lasts so short a time.
She allows water and foods to boil furiously, instead of turning down the flame.
She has her husband turn the gas part way off at the meter. This gives her a low pressure, and increases the length of time necessary for preparing the meal.
She uses a worn-out range, with burners out of adjustment. She does not know that the gas company would be glad to tell her what is the matter with her range.
She never cleans the burners of her range.
She uses her oven for baking, but does not plan to keep it full. She could plan baked potatoes or a casserole dinner for baking day.
She uses larger cooking utensils than she needs. In a set of triplicate saucepans, she could cook three vegetables over one burner.
She uses open vessels, which consume five times as much gas as closed vessels of the same size.
She fails to report to the gas company when she gets a wasteful yellow flame.
She has never learned to read the gas meter. Hope Finfrock Norris.

SHAWNEE-TP ORGANIZES FOR TUBERCULOSIS TEST

Farmers of Shawnee-tp organized Wednesday night to sign the township for the tuberculosis test for cattle.

Those chosen to solicit their respective school districts are: John Sereff, McBeth; C. W. Cotner, Helsel and Kemp; A. P. Lehman, Myers; Guy Culp, Hume; L. E. Carter, Harp; S. B. Adgate, Adgate, and Clarence Breese, Shadyside. No representative has as yet been picked for the Hog Creek school district.

With the organization of Shawnee-tp, only one township, Marion, remains to be organized for the test, County Agent H. J. Ridge said. However, Marion is making arrangements to hold a meeting for that purpose in the near future.

BIGGER PROFITS FROM POULTRY RAISING

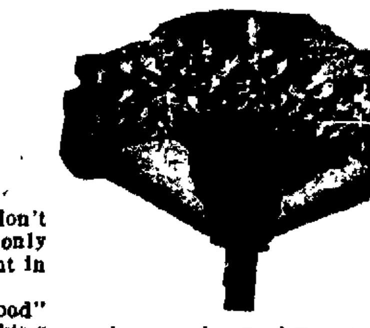

When you buy an incubator, buy absolutely the best—don't be satisfied with a "fairly good" machine. The best—and only the best—will produce maximum profits from your investment in time, labor and equipment.

The Superior Automatic costs you no more than "fairly good" incubators—and every dollar of its cost is a safe, money-making investment. It is a time-tried incubator and has absolutely proved its greater efficiency. Its so simple, so ingeniously designed, so well-built and so thoroughly dependable, that we positively guarantee results. No other incubator can live up to the strong Automat : guarantee.

The Automatic is guaranteed to hatch bigger, stronger chicks, and more of them. And it is the easiest incubator to operate. It does its work right with minimum attention. It demands no night vigils—no adjusting. It can't overheat or underheat—Automatic revolving Clinto Heat control absolutely prevents it. Heat, ventilation, moisture—every condition for hatching is exactly right—every hatchable egg hatches.

From start to finish the Automatic is built right. It is the only incubator in which all the features that you want in your incubator are combined. Choose the Automatic—for better service and Bigger Poultry Profits!

Automatic Coal-Burning Colony Brooder

An outfit that will raise as many chicks as desired—a highly profitable investment. Uniform, correct temperature always—plenty of fresh air—ample exercising room for chicks. For hard or soft coal. Feeds itself—absolutely self-regulating. Fill it twice daily and shake it down—that's the only attention it needs. Operates satisfactorily in any room in any temperature. Two sizes—No. 5—42-inch drum, 500 chicks. No. 10—52-inch drum, 1,000 chicks.
